

## Explore Newtown Creek's Urban Ecology From Home!

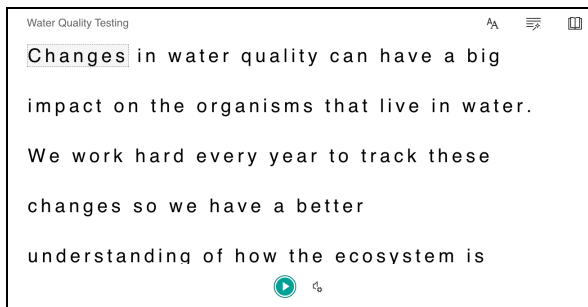

### Navigate the Newtown Creek Urban Ecology Online Resources:

Each page begins with an informative description - start at the Orange information Kiosk.

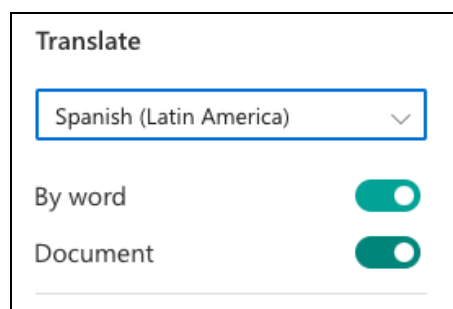

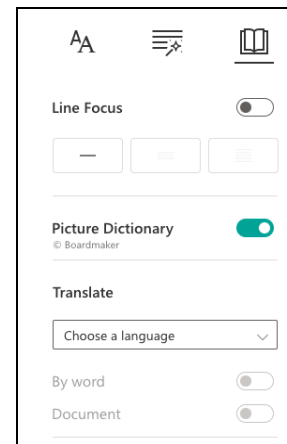

Each icon you click on has the option to be read out loud in English and in Spanish (and to be translated into many languages). Click this image once you opened an icon to access this option.

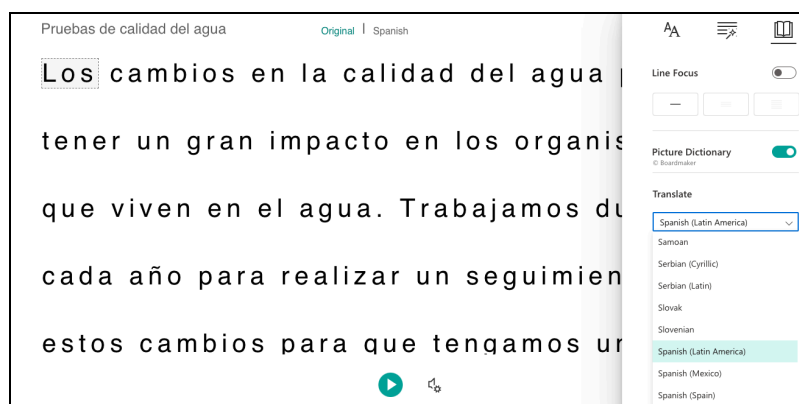

Once you've clicked on the read-aloud option you'll see this page. To activate the reading hit the blue play button at the bottom of the page.

Next, you have the option to change the text language. Do this by first clicking on the open book in the upper right-hand corner of the screen where you will see a Translate dropdown menu. Select the language of your choice. Not all languages can be read aloud.

Make sure to hit select "Document" to have *all* of the text translated.

When you're done hit the back arrow on the page (not on your browser) to go back to the main activity page.

The rest is pretty flexible, explore away!

Enjoy the materials and if you are looking for something specific to share with your young learners, let us know! We're always looking for ways to grow and expand our resources.

*Thank you to our friends at Green Map for the super cool icons that we were able to use on all these pages! Your work made our work so much better. <https://www.greenmap.org/>*
