

## **CHOCOLATE COVERED POTATO CHIPS**

1 bag ripple potato chips (use the thick ripple ones!)

1 lb. chocolate melts or melting chocolate

Carefully pour the bag of potato chips onto a cookie sheet and sort the potato chips, keeping those that are large and not broken.

Place chocolate melts into a microwave-safe glass bowl and microwave on 70% power for 1 1/2 minutes. Remove from the microwave and stir. Replace and continue to microwave in 1 minute intervals, stirring after each time, until the chocolate is melted and smooth.

Carefully dip each potato chip into the melted chocolate and then place on a sheet of waxed paper to cool and harden.
