---	---	----------------------------	--------------------------------	------------------------------	----------------------------	---------------------------

Style Sheets - Create formatting consistency when creating documents

Create hyperlinks within document using Style Sheet or Bookmark

Text

Link

Paste a link, or search

- ▶ Headings
- ▶ Bookmarks

1. Highlight text like you would to create a hyperlink, but choose headings to see all the headings you created & link to them

2. You can link to a bookmark that you created previously by going to Insert > bookmark - with this method you can create a hyperlink to an image or chart, for example.

This image appears next to bookmarked items

Comments

Email comments directly to your students

Ste

1. Add a @email address and type in a comment - it will be sent directly to the recipients inbox

+jmurray@lexingtonma.org - What does this mean?

☐ Assign to jmurray@lexington.

Your +mention will add people to this discussion and send an email.

☒ Assign to jmurray@lexington...

The assigned person will be notified and responsible for marking as done.

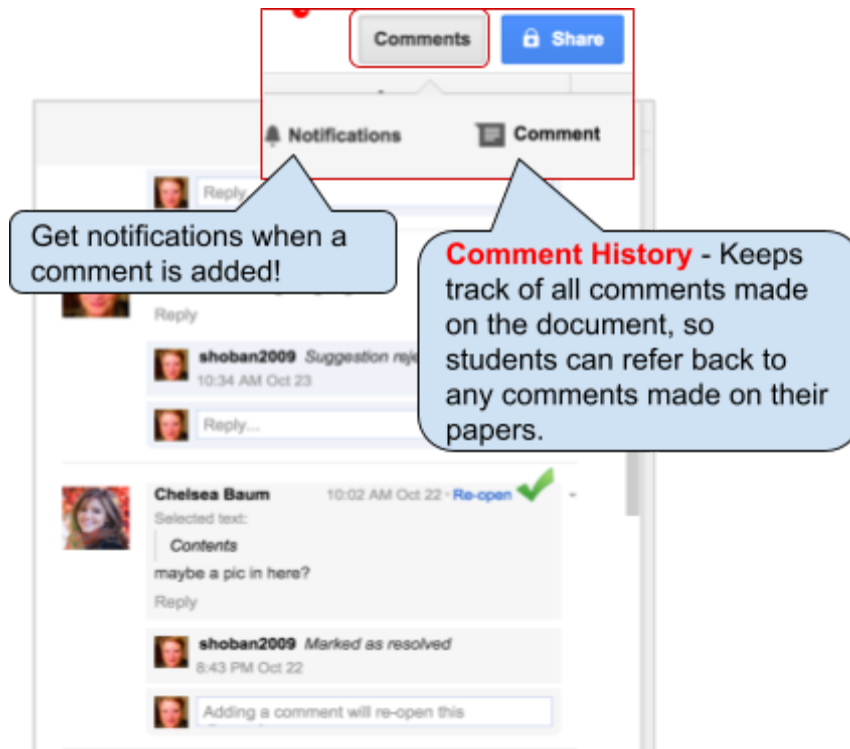

2. Or assign the task and the recipient will have to come to this doc and mark as done

Students can reply directly to the comment from the email

Reply

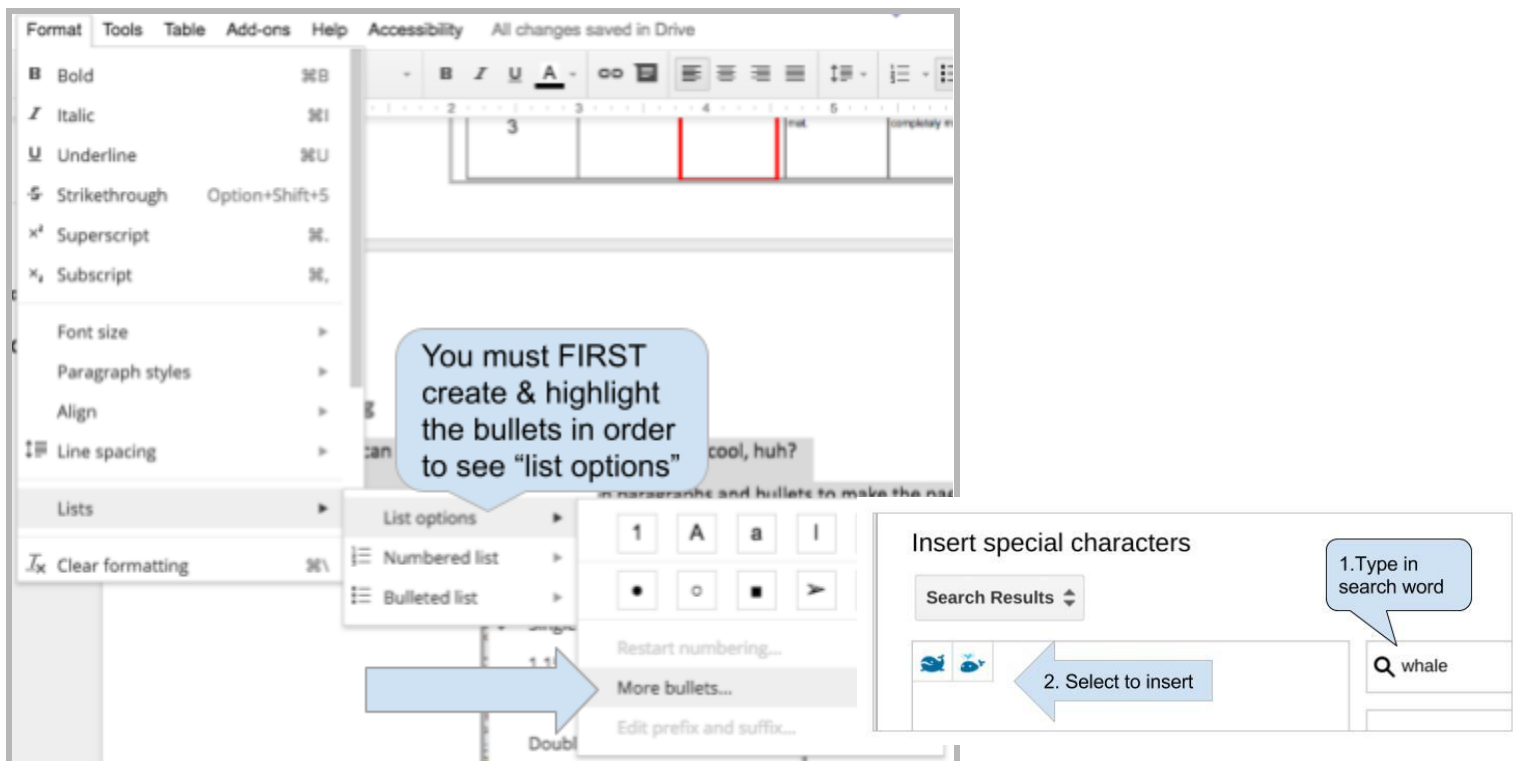

Thanks I tried really hard!

- 🙄 Comments are kept in comment history and can be referred to at any point, no matter if the student resolves the comment or not.

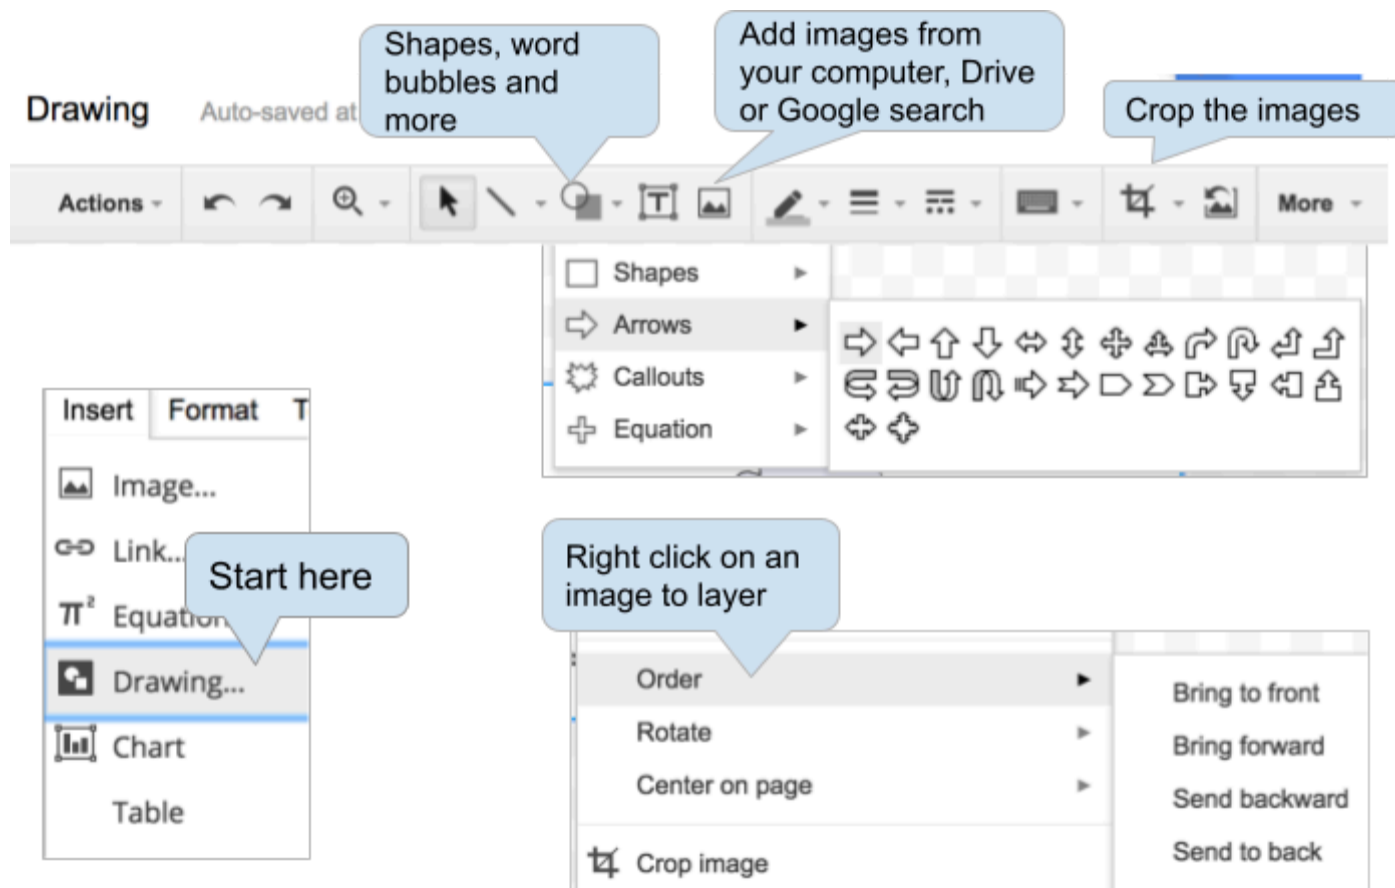

Formatting

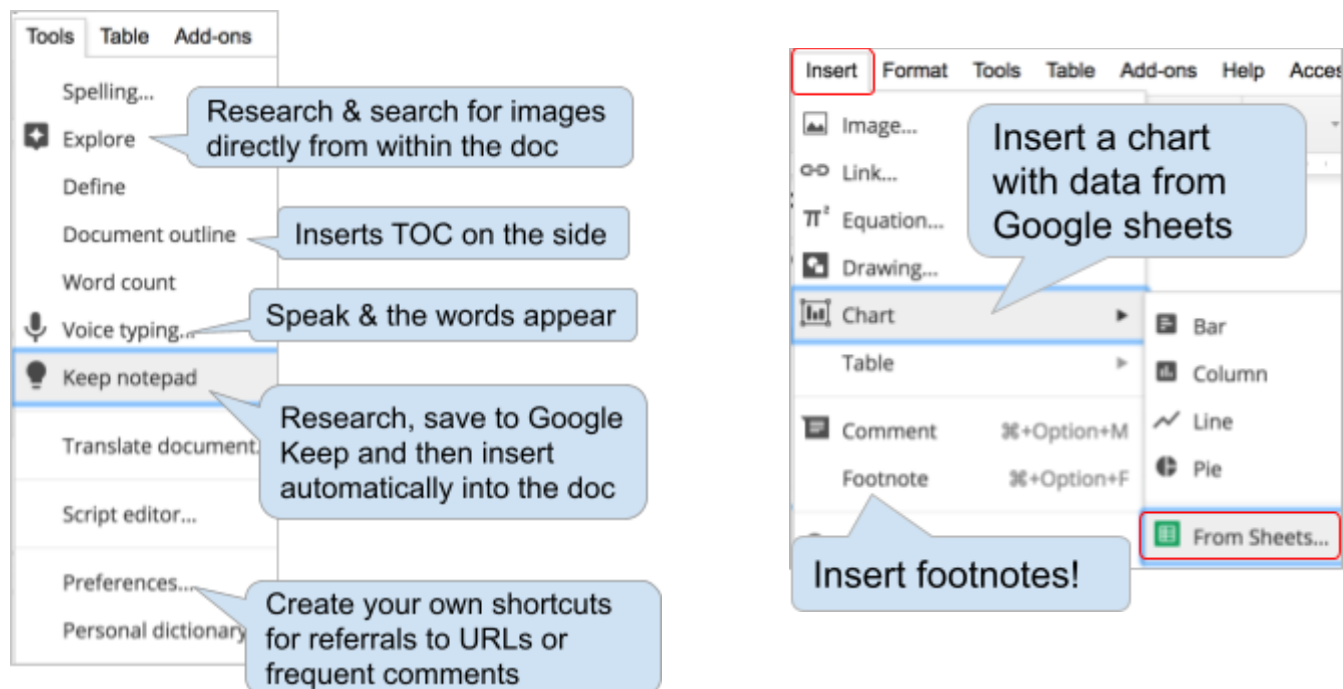

- 🙄 You can make emojis or other symbols as your bullets - pretty cool, huh?

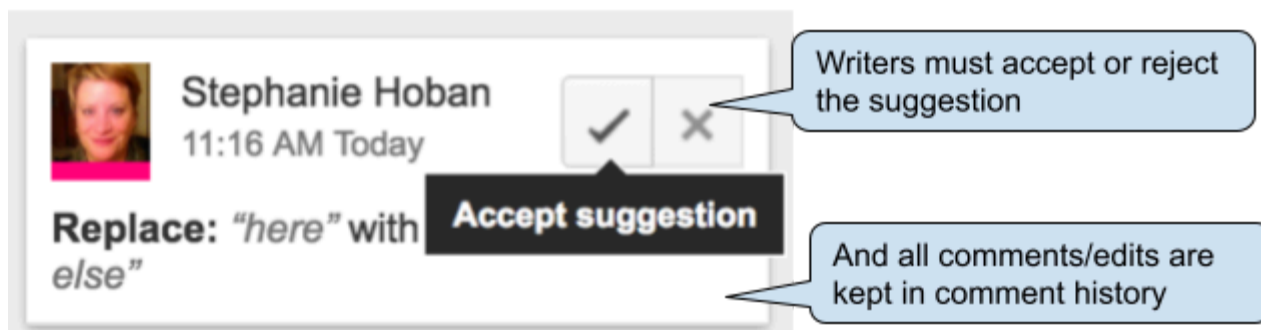

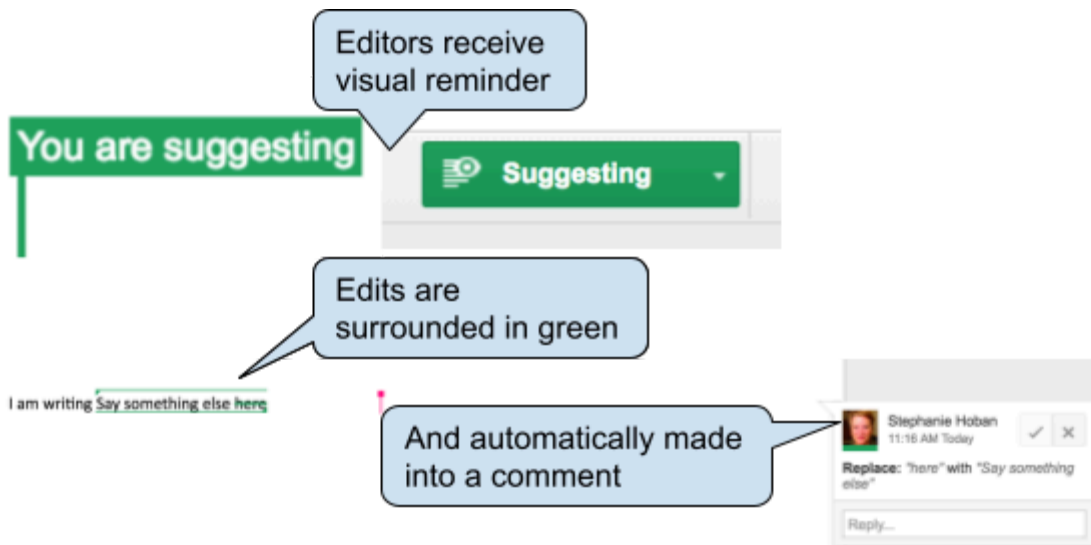

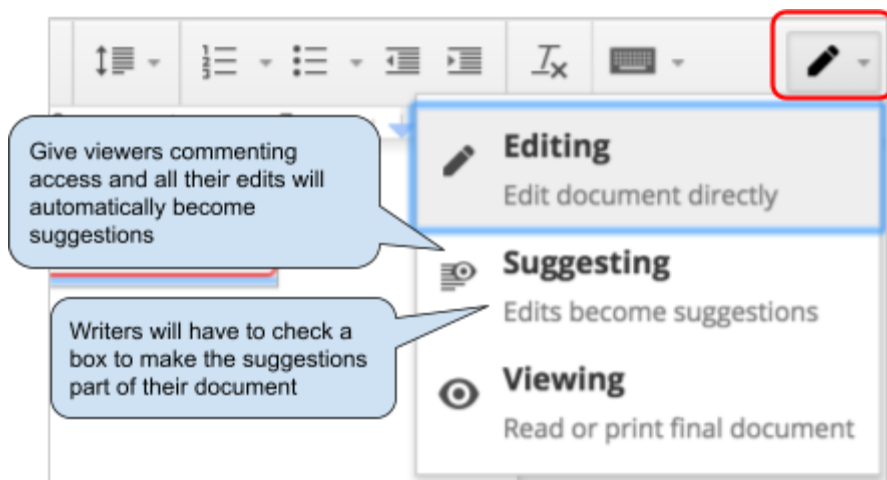

Drawing Tool - It is pretty cool

Tools & Insert Menu - Got to Explore

Suggesting vs. Editing - Great for peer edits or tutor assisted documents!

Practice Makes Perfect

- Make an emoji bullet list
- Create a drawing with arrows pointing to particular parts of the drawing
- Use the explore tool to research about penguins
- Send a comment to someone in this workshop
- Create a hyperlinked image
- Create a table of contents - in any way you can
- Practice voice typing
- Create your own style sheet
