

3D Summer work

Task 1 - Gallery / museum visit

Find a gallery or museum that is interesting to you. Whilst you are there:

- Take photos
- Make notes
- Talk to people who work there , ask questions
- Complete mini sketches
- Collect leaflets / pamphlets / guide books
- Document anything that inspires you

You may want to visit:

Task 2 - Presentation of findings

Present your notes, photos, sketches, any leaflets you have collected across a double page in your folder.

Annotate with any ideas or inspiration it has given you.

Task 3 - drawings

Using the images that you collected from your gallery/ museum visit, please create an A3 page of drawings. This can be one singular large drawing filling the page, or it can be lots of smaller drawings. This work will be added to your student folders when you begin lessons in September.

Remember, the visit to the gallery/museum and the research you collect while you are there needs to be interesting to you, something you feel personally passionate about! I want to be able to learn something about you when you show me your work when you start lessons in September.

Any questions, please email: annie.james@windsor-forest.ac.uk

Have fun, and have a great summer! Look forward to meeting you.
