

Listener review received via email

I am listening to "The All Night Vigil" as I am writing. I have a very fine audiophile system. I cannot think of any recording that I have ever heard that I think is better. Likewise the vocals both solo and in group are incredible. This is truly a milestone masterpiece. Please make sure it is considered for a Grammy by bringing it to the judging bodies attention. Your record label or studio could likely do this. My sound source is Qobuz. In this day and age of electronic gimmickry and studio recording tricks, this is an incredible accomplishment. I feel that there is still sanity in the world, and it lives at PaTRAM.

Sincerely,

Phil Green
