Assignments

Tell me about your workspace-where you are doing your online learning. You can draw it, write about it, take a picture of it, and then send it to your teacher

Tell me one thing you are looking forward to this year. It could be about learning, it could be about friends or family.

Share a worry or concern and maybe we can help lighten that load.

What do you enjoy such as hobbies, talents, sports?

If you were to plant a garden, what would you plant and why?

If you could build a treehouse, or a fort, where would it be, what would you use, what would it look like? Write about it, or draw it or create it and send me a picture.
