    - Are you aware that all dorms cost the same? I am aware of that, but I do not agree with it at all.
    - Do you think the dorm buildings should be different prices? I think dorms should be priced at different prices because there are a variety of dorms and they all offer different things. For example, where I live is an average dorm; communal bathrooms and small bedrooms. Bluestone dorms offer a lot more. For example, wooden floors and your own bathroom that you share with your roommate and the people next to you (suitemates). I definitely think the dorms should be different prices because my dorm for an example is definitely cheaper than Bluestone.
