

Cash Creators Private Invite (Previous Price For 48 Hours)

We aim to build your \$1 million / year Cash Creator Business with 95% profit margins, 67 clients or less and no more than 4 hours a day on the Tools.

It starts with the first 16 weeks. Where our goal is creating \$20,000 with 3 components:

1. Your Proprietary Google Doc Offer

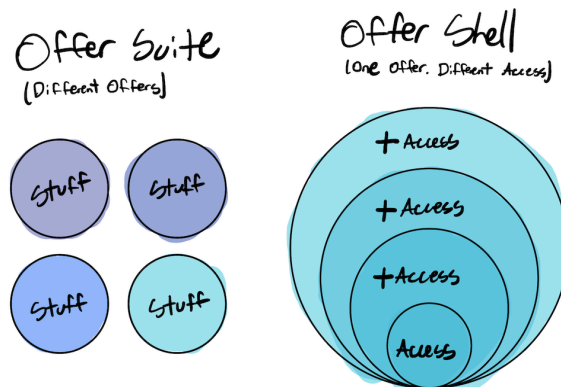

As a Cash Creator you're able to sell your \$1k-\$3k/month offer with your Proprietary Google Doc. You have this option because it solves 1 specific problem in a way nobody else can. It shortens your sales cycle from years to weeks. And because only you can offer it, **it grows your recurring revenue without the need for sales calls.**

2. Whale Bait

Whales are people who need and can afford your solution. You often don't see them because they're hidden in your audience. But **they DM you asking about your offers** when you post Whale Bait (content designed to get leads that are not broke). It's just 1 post a day. Yet it turns Whales that won't ask for discounts, ghost you or waste your time into clients.

3. Your Offer Shell

Offer Suites monetize stuff. Which adds complexity because you have to create a lot of it. Offer Shells monetize access. Which reduces complexity because you can focus on creating one really good thing, then sell access to you to implement it. It's easier to sell, takes less than 2 hours a day to deliver and **gets you clients that pay you triple:**

Our goal in the first 16 weeks is to create \$20,000 with your Proprietary Google Doc Offer,

With 1 Whale Bait Strategy that gets leads who can afford you into it,

And deliver it with 1 Offer Shell you can run all the way **\$1 million in annual profit with 95% profit margins** within 12 months.

TIMELINE TO THE MILLION

Phase 1 (\$20,000/Month):

I didn't offer this in the past.

But as a Cash Creator, you'll get crystal clear on a 1-1 call with me on 3 things:

- Your Proprietary \$1k-\$3k/month Google Doc Offer (which we finish that same day).
- 3 next steps to get your next 20-25 clients with it (no sales calls).
- The exact Model you'll be using to cashflow \$1 million per year.

We start with clarity and a simple plan to scale your Google Doc Offer to **\$20,000 and then \$20,000 per month recurring (20-25 clients)**.

Phase 2 (\$50,000/Month):

You'll hit the additional \$20k/month mark once. Then we'll implement only the pieces of the Cash Creator Model you need to add **\$50k per month recurring with less than 4 hours a day**.

You understand that you get

- **Community** access to JK and the Cash Creators where you can get solutions to your problems within 24 hours. You can get these on our optional calls or via the community if that's easier for you.
- The Cash Creator Workshop Library with all my **templates, secrets and scripts**. As well as access to all past and future workshops.
- 2 weekly Office Hours at 10AM Central European Time and 10AM Eastern Time so you can get help no matter where you are. These are optional. The only needed call is the initial one with me to get you **clarity** on your plan to \$1 Million.

You'll have a community to rely on when you feel stuck and celebrate wins with on your path to **\$50k/month in recurring profit (40-55 clients)**.

Phase 3 (\$84,000/Month):

The last step is about getting less people at higher prices:

With your Offer Shell in place, we'll find those Whales in your audience willing to pay you triple. And sell them into packages that take you less than 2 hours a day to deliver. **You only need 12 of these to get you across the \$1 million/year milestone: \$84,000/month.**

At this point you're free to do either:

Push to the next income level (Cash Creators range from \$4k to \$400k/month).

Or take a step back and enjoy the freedom your Cash Creator Business earned you.

Investment?

It's easy to get started in Cash Creators because two clients are more than enough to make it pay for itself and you could get them next week.

Your investment is \$350 now and then payments of \$350 every week if you sign up in the next 48 hours.

And to make it even easier for you...

Time To Profit:

Cash Creators is an asset. Not a liability.

In 16 weeks you can expect \$20,000 to be created and the 3 Fundamentals to be in place:

Your \$1k-3k **Proprietary Google Doc Offer** that grows your recurring revenue without sales calls. Fueled by a **Whale Bait Strategy** that gets leads that are not broke into it. With an **Offer Shell** that gets you clients that pay you triple.

And your business runs in 4 hours a day or less.

After the 16 weeks you have the option to cashflow your Model to \$1 million in annual profit with us or to leave right after.

If you leave you can't rejoin for a year.

Guarantees and Promises:
