May 1, 2020

Hello Families,

Earlier this week, Governor Herbert released a statement speaking to the students of Utah. Please review his video by clicking the image below. He expresses what so many of us feel which is the loss of our social connection at school, sorrow for the missed end-of-year activities - especially for the Class of 2020, and the continued obligation to follow guidelines for public safety.

***What is the plan for obtaining my student's items from classrooms, cubbies, lockers, etc.?***

We are planning to send out a finalized schedule next week regarding item pick-up which will occur over the last week of school. Families will be able to drive to the school building your student attends in designated times as assigned by last name. Prior to the last week, we will have all classroom teachers (STARS, K-6) and Advisory teachers (7+) gather student items in grocery bags, label them, and have them ready for pick-up.

As we have gathered guidance from the state and other schools, Spectrum has identified the following timeline for the end of the school year.

- May 14, 2020: Last day of instruction, no new coursework will be assigned.
- May 18-22, 2020: Teachers will be available for small group or 1:1 support to complete assignments.

- May 22, 2020: Last day to turn in assignments.
- May 26-29, 2020: Tech drop off and student item pickup.
- June 1-2nd: Final tech drop off

### *How will technology and equipment that was borrowed from the school be returned?*

So that families do not have to make multiple trips, we anticipate that most of the items borrowed will be returned at the same time as personal item pick-up during the last week of school. **The final schedule for tech drop-off and item pick-up will be sent out in next week's memo.**

### *What is the process for picking up medications and other items that are stored in the nurse's offices?*

Nurse Tasha and Ms. Ashlyn have contacted families and conducted a med pick-up over the last two days. If you are still in need of picking up your student's medication, please feel free to email them directly.

### *What is happening with ESY?*

The plan for Extended School Year has yet to be finalized as we are still awaiting guidance from the Utah State Board of Education. Presently, we are planning for a virtual administration of ESY services. This format would be a continuation of current instruction and service provision with more time spent on individual IEP goals.

### *Will there be yearbooks?*

The Intermediate School and High School yearbooks have been submitted for publishing. Once yearbooks have been delivered, all students who have purchased one will be notified that they are available for pick-up. More details will be available next week regarding the availability of purchasing yearbooks.

The Elementary does not have a School wide yearbook but is planning on putting together a free page for each class. Look for more details from your students' teacher in the coming month.
