## **1. Automated Lead Capture & Instant Follow-Up**

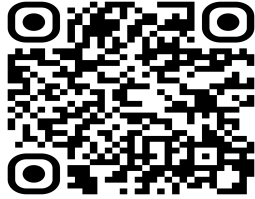

**Don't let leads slip through the cracks—follow up instantly!**

**How It Works:**

- 1 A customer submits a **lead form** from your website, Facebook ad, or Autotrader listing.
- 2 Within **seconds**, they receive an **automated SMS & email** confirming their inquiry.
- 3 The system **pre-qualifies the lead** by asking questions about financing, trade-ins, and credit score.
- 4 If they don't respond, a **follow-up sequence** (calls, texts, & emails) is triggered.
- 5 The lead is **tagged and segmented**, ensuring personalized follow-ups.

 **Example Message:**

 "Thanks for your interest in the 2022 Ford F-150! A rep will contact you shortly, but in the meantime, here's a financing calculator: [Link]"  **RESULT:** Faster responses = Higher engagement = More test drives booked!

## 2. Automated Test Drive & Appointment Scheduling

Make it easy for customers to schedule a visit—without back-and-forth calls!

### How It Works:

🚗 Leads receive a **self-scheduling link** for test drives, financing consultations, or trade-in appraisals.

✉️ They get **automated reminders** before their appointment.

🔄 If they cancel or no-show, they receive a **follow-up offer** to reschedule.

💬 Post-appointment, they get a **personalized follow-up** with next steps.

### 💡 Example Message:

"Your test drive for the 2022 Ford F-150 is confirmed for Saturday at 11 AM! Reply 'YES' to confirm or 'RESCHEDULE' to choose a new time."

✅ **RESULT:** More scheduled test drives = More sales!

## 3. Reputation Management & Online Review Boost

More 5-star reviews = More trust = More customers!

### How It Works:

✉️ After a purchase, customers receive a **thank-you message** and a link to leave a review.

👍 Happy customers are directed to **Google, Facebook, or DealerRater**.

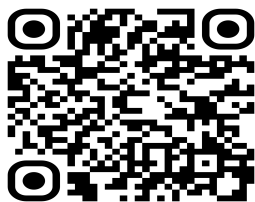

⚠️ Unhappy customers are sent to a **private feedback form** instead.

🔔 Management gets **instant alerts** about negative feedback so they can respond.

### 💡 Example Message:

"Thank you for choosing Elite Auto! We'd love your feedback. If you had a great experience, leave us a review: [Google link]. If not, tell us how we can improve: [Private Feedback Link]."

✓ **RESULT:** More positive reviews & a stronger online reputation!

## 4. Trade-In & Customer Retention Automation

Turn past buyers into repeat customers!

### How It Works:

 The system **tracks customer purchases** and sends **trade-in reminders** when their vehicle reaches optimal resale value.

 Customers receive **personalized offers** for trade-ins & loyalty incentives.

 If a customer hasn't serviced their vehicle in a while, they get a **service discount** to bring them back.

 **Example Message:**

 "Thinking about upgrading? Your 2019 Toyota Camry has **GREAT** trade-in value right now! Get an instant estimate: [Link]."

✓ **RESULT:** More trade-ins = More repeat customers!

---

## 5. Referral & Loyalty Programs

Turn happy buyers into brand ambassadors!

### How It Works:

 Customers who refer a friend get a **\$250 cash bonus** or dealership credit.

 They receive **automated referral reminders** to keep them engaged.

 Their referrals get an exclusive **VIP discount**, increasing conversion rates.

 The system **tracks referrals** so you can reward top promoters!

 **Example Message:**

 "Love your new car? Refer a friend and get **\$250** when they buy! Start here: [Referral Link]."

✓ **RESULT:** More word-of-mouth marketing = More leads = More sales!
