

Psychology
Unit 4-Consciousness
Substance Abuse

Here is the List of Most commonly abused drugs in the United States:

<https://nida.nih.gov/research-topics/commonly-used-drugs-charts>

Task: For your assigned substance research the following, prepare a google slide presentation, and report back to the whole class.

1. Statistics/History (Is it common, rare, legal, or illegal?)
2. Characteristics (What does it look like?)
3. Effects (Short term vs. long term)
4. Treatments (Does it need to be treated? If so, how?)
5. Case Study (What does a person who has it say about it?) The videos worked well with the Sleep Disorders/Problems Associated with Sleep...
