EXPERIENCE

Moksha Data / Associate & Data Scientist

MAY 2020 - PRESENT / Houston, TX / [More](#)

I create interactive, engaging graphics and analyses for clients such as the City of Houston. I build static reports using R and interactive dashboards using D3.js, Vue, HTML & CSS. I'm responsible for frontend web development, information design, and data visualization.

Axios / Data Visualization Intern

MAY 2021 - AUGUST 2021 / Arlington, VA / [More](#)

I produce engaging data visualizations to accompany news stories. I use languages such as Svelte & D3, tools such as Datawrapper, and software such as Adobe Illustrator to create customized, interactive graphics for Axios journalists.

US Special Operations Command / Data Science Intern

JUNE 2020 - AUGUST 2020 / Tampa, FL / [More](#)

Through a fellowship with [Coding It Forward](#). In six weeks, I built a full stack web application that automates the process of verifying inventory data. This tool is expected to save roughly 2,500 man hours and \$102,000 annually.
