

Past/current experiences working in the field of disabilities: _

Past experiences working in the field of disabilities have been working with children with social/emotional disabilities. I also have some experience working with children who are Autistic, developmentally delayed, and have behavioral problems in a transition school at various ages ranging from 4 to 11 years old.

Goals for your LEND training experience:

Some of my goals for the LEND training experience are to gain a lot more knowledge about different disabilities and how to understand each of everyone's unique circumstances and how I can be of better help to someone with a disability as well as make their life easier now and in the future.

What you wish to contribute, in the future, as a professional/family member in the field:

I would love to contribute as a teammate with my fellow team members. I want to build awareness around adults with disabilities as well as children, I want to be proactive in my work as I work with my team, and I want to be an engaged learner as well as have others learn from me.
