EMAIL #1: Who else is making this common planning mistake?

Suggested Subject Lines

Who else is making this common planning mistake?
Here's the #1 mistake that almost every entrepreneur makes…
Save time and money by avoiding this mistake…

Hi [Name],

I've talked to a lot of online business owners over the years who're trying to achieve big goals and I'm betting the majority of them all made the same mistake at one point.

And you know what?

There's a really good chance you or your customers are making it too.

So let me ask you a couple questions…

- Do you ever feel overwhelmed when working on a project?
- Do you ever feel like your progress is getting stalled?
- Do you ever not know the next step to take towards your goal?

If you answered "yes" to even one of the above questions, there's a good chance that you're accidentally making a common mistake. It's this: failure to plan.

So many people don't understand the basic concept of project management and how project management tools can exactly help them achieve their goals.

BrandableTech has just released a new package that explains why project management is so important, how it works, and the tools you can use to make it a success.

This is what you get:

1. **Project Management Tools to Increase Productivity** - A short report, over 2,500 words, on the what of project management is, the importance of using project management tools, and recommendation on tools to use.
2. **5 Articles** - Each article is over 500 words and gives a overview of the most popular project management tools available today. Titles include:
    a. Trello: A Visual Project Management Tool - 603 words
    b. Organize Your Projects With Basecamp - 678 words
    c. 8 Reasons Nozbe Is Great for Project Management - 638 words
    d. Is Asana The Right Project Management Tool For You? - 544 words
    e. Slack: A Focus on Communication - 567 words
3. **5 Video Overviews** of Trello, Basecamp, Nozbe, Asana, and Slack.
4. **5 Project Management Screenshots**
5. **Project Management Tool Report**- All five project management tool reviews list above in one handy report totaling over 3,000 words
6. **10 Shareable Social Media Graphics** - 800px X 800px in both PSD and PNG formats

The best part is that this entire package comes with private label rights, which means you can edit it content as wish and claim it as your own.

EMAIL #2: The #1 way to get projects done…

The best way to get projects done…
Looking for the best way to get projects done?
If you want get ahead in your business, do this…
Hands down, the #1 best way to a project completed…

Hi [Name],

It's no secret that if you're running a business, then you have goals to meet and projects to get done.

Problem is, successfully completing projects in a timely and organized fashion has probably eluded you so far. And no wonder -- there is so much conflicting advice about how to plan projects, that you end up chasing all the wrong ways to do it.

So let me make this very easy on you…

BrandableTech has just released a new package that explains why project management is so important, how it works, and the tools you can use to make it a success. This includes a short report, articles, graphics, tutorial videos and more.

Now let me share with you another secret…

This entire package comes with private label rights, which means you can edit it content as wish and claim it as your own so you can teach your people how to successfully manage a project.

EMAIL #3: The easier way to manage a project…

This is the easiest way I know to manage a project…
You won't find a better way to manage a project…

Hi [Name],

Ever notice that trying to manage a large project that involves multiple people can end up being a tortuous, slow process? I mean no one ever said it was going to be super easy, but you sure didn't expect it to be this dang hard. Am I right?

Listen, you're not alone. Most business owners have grumbled a time or two in their lives about a project that has gone astray. And most just keep slogging along planning their projects in their inbox, figuring they'll eventually get the project done.

Heads up…

What would you say if I told you there was an easier way to projects organized and completed. I bet you'd be interested, right?

Good news – that strategy exists! And you're about to learn all about it…

BrandableTech has just released a new package that explains why project management is so important, how it works, and the tools you can use to make it a success.
