

## **Book of the Month Information**

At Highland Elementary we believe in putting literacy at the heart of our school. We have bottom-line standards for kindness and respect across the entire school community. Book-of-the-Month is one way that we are creating a community of shared literacy as well as fostering kindness and respect.

Each month all students at Highland Elementary listen to the Book-of-the-Month and have conversations about it. Sixth graders and kindergarteners alike should be able to talk to you about the book that they have heard. We invite you as parents to find the book at a library and read it so that you can discuss it with your children. Conversations at the dinner table can be about the book and what it means in your children's lives. Each month we will post the book that will be read that month along with a summary.
