## Quotes/Dialogue

Guards are to not speak unless needed too in situations like these

Voting: "If you wish to give up on playing, (amount) of robux will be sent to the remaining players."

Red Light Green Light: "You are allowed to move forward when 'it' shouts out, 'Green Light' stop moving when 'it' shouts 'Red Light.' If your movement is detected afterward, you will be eliminated"

If someone complains about the rules and deaths: They were simply eliminated for breaking the rules of the game. If you follow the rules, you can leave this place safely with the money we promised.

They may speak through party chat, DMs, discord, and guilded. only with different channels for insider communication.

## Audio IDs:

Red Light 8085020387

Those who die in a rebellion are hanged.

## Punishments:

Humiliation: Some rebels will be under the floor in a cage in the center of the map in a "Animal Zoo" ; they will be kept there until the games are over and they will be harassed with tomatoes and shot at.

# Math:

1 Death = so  $X(200\$) \times Y(12p)$   $P =$  (players per server) so multiply by 3 for the 3 servers is 10800 and due to roblox 200\$ tax their gamepass must be 11000

## Expenses/Payouts:

I will give emotes, Reneu gives robux.

Money distribution:

Winner gets 300k which will be given in 2-4k robux portions per week for 1 year and 100 emotes which the price of 50 emotes being 1250 means 100 is 2500 with 2 limited along with 35 spins for 2625

That's over 7000\$ worth of robux, emotes, and spins. Topped by 1-3 gamepasses and 2 limited emotes.

We have 2 guards (thats all we need) Guards get 1.3k  
That's 2.6k

4 Builders and it's 1.8k per builder.  
That's 5.4k

3 Hosts, Reneu, Jade, and Me. Hosts get 2k the prizegiver is Reneu so he gives us 2k and keeps his share.

Total Expenses

S1 Winner: 20k, 87 emotes, 24 spins, 1 gamepass of choice

S3 Winner: 300k Robux distributed every week in 3-5k cuts for 1 year 2500 for 100 emotes, 2625 robux for 35 spins, 1-5 gamepasses of their choice, depending on how much they already have, they also get all in stock limited emotes they can choose to have emotes, spins, and passes gifted to someone else, current limited emotes that are in stock, they also get 3 roblox limiteds if they have premium.

Guards: (All 2)2600

Builders(All 4): 30k

Hosts (All 3): 7500

300k topped by 1-3 gamepasses of choice and 2 limited emotes. That's over 1696dollars.

100k along with the prizes making the expenses 3750 along with the gamepasses and limited emotes with 3 roblox limiteds. That's over 7000 usd

with texture IDs and meshes for the dolls and stuff so I abused that like it owes me money.

I had previously purchased a squid game map from Novela though it was missing a few games and player trackers so I called up the builders and we started to work on The Strongest Battlegrounds: Crab Game Mega.

Present Day: December: A 2 week event with the grand prize of

4000m ink game won

400\$

175 Emotes

100 Spins

40 thousand robux

40 gift cards of choice.

4 Gamepasses of choice in any game.

4 Official Roblox Limited Items.

4 Custom Made UGCs for the event made by Lunaware's friend who makes the UGC these are claimed in the UGC claiming game.

August 7th 2025: "I hosted a 300 thousand robux squid game competition but... the odds were out to fucking GET ME BRO".

"I had a dentist appointment an hour and 30 mins before the event and didn't know how long it would take."

Summers almost over. If I delayed it it would be the day before school starts.

Show clip of me accidentally deleting build "im slow as fuck and removed it."

The event flopped...

OR DID IT?!

August: 10th A few days later we did again but with only a few games with special twists.

Present Day:

Then I figured I'd go on an even bigger scale with multiple crab games.

We had: Crab Game Upgraded, Crab Game Mini, Crab Game MEGA.

So grab some water and some food (FATASS) and watch the video with your retinas.

Behind the scenes part:

“Ok so we had to some building lol, I found out you can do decals

Just in case the event goes wrong we have many backup maps.

If all else fails we settle for ink games.
