

The letter below has been mailed to the Dean of Students, along with the names underneath. It has also been copied to the Director, Deputy Director, and various HODs.

Respected Sir,

We were deeply shocked to read your statement to the press reported in today's Times of India, regarding the recent suicide of student Nitin Kumar Reddy:

<http://timesofindia.indiatimes.com/city/chennai/Day-after-suicide-at-IIT-M-blame-game-on/article-show/8172860.cms>

"When asked as to what the Institute in general and Guidance and Counselling Unit (GCU) in particular was doing to address the situation and to improve the response against such incidents, Dean of students Govardhan M said,

"Why are you always reporting negative news about IIT Madras? We also have the maximum number of patents but you didn't report that. But you would want to report the death of 3 out of 5000 students which is statistically not important. Why don't you go to other engineering institutes and find out how many died there. Why only IIT?"

He went on to say, "Do you know the student who died yesterday had a medical history of psychological problems from childhood? But obviously you don't want to investigate." But he quickly corrected the "childhood" part to say, "We have come to know from his friends that when he could not clear JEE in an attempt, he went into depression."

Please excuse us if you were in any way misquoted by the TOI. If, however, they have quoted you fairly, we are horrified to think that the Dean of Students would be so crass about the death of one of his students. There is not the least amount of regret or sympathy in your remarks. Is this how concerned you are about the welfare of the student community? How many suicides need to take place before they become statistically significant?

Please do not take our words as a mark of disrespect, we are merely expressing our extreme disturbance if this is the official attitude that the institute maintains towards its students. It would be in the best interests of IITM that you publicly apologise and withdraw your statements.

We also hope you would make a serious inquiry into how the institute administration handles student affairs and what can be done to prevent such incidents in the future, rather than just brushing them aside.

Yours sincerely,

1. Kaushik Viswanath, HS06H012
