Please, take notes here during the introductions and presentations

- More towards intermediate skills in R and GitHub to be part of the program.
 - Applicants with less experience in that are offered training in that to have stronger application for next year.
- Pao offer to delivery the workshop with Yani :-)

Please, write your questions or comments here

- One of the most famous packages for R in agriculture is from Peru, “agricolae”!

Please, complete our anonymous survey, so we can improve this kick-off meeting.
