

Bob Hendry MPHS Jan 1966

K-5 "The Portables" in Mt. Greenwood

6-8 Mt Greenwood Elementary

9 Clissold Branch MPHS

10-12 MPHS Main Building

1966-1970 NIU, BS Business (Marketing) Pete Terry, and Sandy Schuessler were my best buds from HS at NIU

1973-1976 Loyola MBA (Lewis Towers)

I was in the first lottery, pulling 278.....and never got called up! I'm just about the only guy of our age (I know of) who didn't "go". Frankly, I've always felt a bit guilty about it.....especially since my brother Billy (MPHS June 68) went and saw too much.

August 7th, 1970 Judy (Wall, a Tri-Sig from NIU out of Western Springs and LTHS) and I were married and settled down in Addison. I was working for the Marathon Oil Company, as a District Manager running about two dozen franchised dealerships. Judy taught in Berwyn.

In 1975, I switched jobs, and went to work for the Maremont Corporation, working in the Gabriel Shock Absorber Division and Apex Automotive Warehouse. By that time, we had bought our first house in rural Hinsdale, for a whopping amount, \$36,000!

In 76, along came our first, Janelle.....who is now an MD in the Cleveland Clinic System and has two children of her own! She's got a little girl of 5 and boy of 3 with Bill Henning who was from Broadview Heights and met sis at Case. She's a Case/Case MD. Bill's a Systems Grad from Case, interned at Microsoft and now has his own successful business on

the web named Actipro Software.

I jumped an opportunity in January 77, and went to work and live in St Louis (Chesterfield). This move, put me into the tire repair industry, where I've been ever since.

In 81, along came our second, Bobby. He now works for my firm as the Sales Manager. He had an outstanding football career (google him if interested) and was a highly decorated multi sport athlete (North Canton HS and The University of Akron in Ohio). He was married in 06 to Katie Brown from Cuyahoga Falls and UofA. They gifted us with two little ones, a girl 3 and an infant son.

August 7th Judy and I will celebrate our 40th by taking a trip to her favorite place, Vegas. We live in North Canton, and have a lake place on Lake Mohawk near Malvern Ohio, and a condo on St Pete Beach in Florida.

God has blessed our family in many ways. We are principle owners of a company named "31 Incorporated" (you can google it if you care to) which is a world leader in manufacturing tire repair materials. Our health and general well being has been excellent. We have made many dear friends all over the world (thru the business), and retain great friends like you guys thru the wonderful efforts of Craig Hullinger and his buddies. We got to see our parents (except for my dad) well into their late lives, and share time with each of them. Really, what more could we ask for? J

That's where I've been. As I said, I hate talking about myself, but this will give y'all a general idea.

I hope your "Book of Life" has been blessed and rewarding.

Respectfully

Bob

(6'1" 180, honest!)
