Skills and Training:

The lizan rogues combine evolutionary advantages with acrobatic combat skills.

Advantages include hard scales, claws on both feet and hands, a thick tail and a long sticky tongue. Their training has resulted in an uncanny speed and ability to dodge attacks, especially ranged attacks. Their physical and mental conditioning makes them resistant to lust based attacks. They do not fight fair.

History

The lizan controlled village Drazil was a large community in the desert before the demons rose. During the demonic campaign they faced relentless demonic attacks. As the demons grew more powerful and more bold the Shaman Council decided it was time to move to a more easily defended area.

Leaving their desert oasis to the demons, the lizans of Drazil migrated to Mareth's swamps. There they found the scared and scattered survivors of other scaled races trying to live and build a community. Seeing this as an opportunity the Shaman Council created The Alliance.

The Alliance, an oath that any pure creature who wants to live free of corruption may join them, became their greatest weapon. The other scaled races, with the exception of the dragons, fled to the bog where they could be safe and hidden. The Alliance created a large community of creatures with varied knowledge, culture and natural weapons that included nagas, crocs, and lizans among others. Yet all of these races and resources are under the control of the lizan's hermaphrodite leaders, the Shaman Council.

Since leaving the desert the lizans have been under Martial Law. Their royal family has

been downgraded to figureheads and have no real power. All power lies in the shaman council which is controlled by a the War Chieftain. They named their new safe haven within the Bog Selacs.

The lizan rogues are tribal warriors who hunt and gather for their tribe while dealing with possible threats to the village. These highly trained commandos rely on speed, evasion and debilitation. They weaken their foes and seek to send them running or to end the fight quickly. They don't believe in wasted movement. Each lizan bears a seal on the roof of his mouth. Should he communicate about Selacs at in any way shape or form, unless he's within the city's limits, the seal activates and paralyzes him from head to toe leaving him unable to divulge the village's location.

The creation of these rogues was a reaction to demons trailing younger lizans back to their village. Too many lizans were lost and too many demons knew of the village hidden in the bog, forcing the powerful members of the Shaman Council to hunt them down personally. Now a high level shaman under direct supervision of the council is in charge of assessing the skills of these Lizan rogues and inscribing their seals as part of a graduation ceremony.

Mentality: These lizan Males are non corrupt but that in no way makes them prudish. They are more than willing to have sex with a non-corrupt PC of any gender. That being said they have been trained to "smell" corruption and will react aggressively to a PC who speaks to them and has a detectable level of corruption. They don't run from battle for fear of being followed back home, however they also do not chase those who run. Instead they start the process of covering their own tracks and disappear to either continue their mission or report the incident to the village.

I'm gonna hurt you...bad - attack + weapon value 3

Hit – The lizan rushes at you. As you raise your [weapon] to defend yourself he dives to the side, using his blowgun to fire a single stinging dart into your neck. Miss - All you see is a flash of pink and without even thinking you twist out of its way and watch the lizan's long tongue snap back into his mouth.

*Blindness can either weaken each turn or just last for two turns

all stat decreases/increases only last for one battle of course.

Auto Defenses

Bow – You fire off an arrow with a loud twang from your bow. As the archaic missile flies at the lizan he rolls off to the side. His long tongue lashes out as he does, snapping the arrow in two with a leisurely strike.

It appears he is too fast and well trained for normal projectile attacks.

Wingstick – You fling the wingstick with all your might and its aim is true. The moment it nears the lizan, though, he catches it with a flick of his wrist.

It appears he is too fast and well trained for normal projectile attacks.

Infest – The lizan makes no attempt to dodge your worm-infused attack. The worms hit him with a fierce clash and slide down his body, disappearing into the ground without even attempting to

infect the lizan. Maybe they prefer mammals...

Web – As your webbing flies at him the lizan flips back, slashing at the adhesive strands with the claws on his hands and feet with practiced ease.

It appears he's used to countering this tactic.

Escape - As you retreat the lizan doesn't even attempt to stop you. When you look back to see if he's still there you find nothing but the empty bog around you.

Intro

Corrupt Intro

[if (corruption > 30) “As you walk through the bog you happen upon a lone lizan male covered in [lizanSC] scales. Upon hearing your approach he jumps back, your sudden appearance must have surprised him. After an initial moment of surprise the lizan tentatively sniffs the air between the two of you. Without warning he jumps back, flashing his claws and releasing a loud hiss. Apparently he smells something he doesn’t like. You ready for an attack but he just sits there, making noise and puffing himself up. For all the ferocity he displays he doesn’t attack and you realize he’s waiting for you to back down. What will you do?

[Leave] [Fight]

Fight – You ready your [weapon], prepared to let the little punk know just who it is he is dealing with.

Leave – You roll your eyes at the overt display. You raise your hands in a gesture of harmlessness and turn around to head home. When you look back over your shoulder the lizan is gone. Such a creature doesn’t interest you right now anyway.

[if (corruption < 30) “As you walk through the bog you happen upon a lone lizan male covered in [lizanSC] scales. Upon hearing your approach he jumps back, your sudden appearance must have surprised him. After an initial moment of surprise the lizan tentatively sniffs the air between the two of you. [If (tallness > 64) “He is shorter than you and wearing nothing but a loincloth with a pack belted onto it.”] [if (tallness <60in) “He is taller than you and wearing nothing but a loincloth with a pack belted onto it.”] [if (tallness =64) “He is the same height as you and wearing nothing but a loincloth with a pack belted onto it.”] This shows off his toned but slim chest, arms and legs covered in [lizanSC] scales. After a moment of silent consideration he speaks.[cock]

“Hey there.” he says, his lizard lips pulling into a big grin, “... and who might you be?” You answer with the truth, your name.

“Well the alliance is very welcoming to anyone who isn’t corrupt.” he says before rubbing his now bulging loincloth, “But If you would like to play I’m game.” he widens his stance like he’s preparing to fight but his face is still light and playful.

You're not sure if the lizan wants to have sex with you or have a quick sparring match. You could just attack him and do whatever you want with him. What will you do?

[Decline] [Spar] [Sex]

Spar - You tell the male lizan you're game as you ready your [weapon]. His grin spreads into the full toothy smile of a rival as he flashes his claws at you, a taunting gesture. You are now sparring with a lizan male.

win - The lizan raises his hands in defeat and you celebrate with a victory dance. After chatting for a bit the two of you part ways, having gotten a good workout in the process.

lose - You are forced to raise your hand in defeat and the lizan celebrates with a few acrobatic flips and plenty of bragging. After a quick friendly chat the two of you part ways, having gotten a good workout in the process

win or lose - Reduce body fat; increase muscle; gain xp.

Decline - You tell the lizan you aren't up for any games. He shrugs, "Maybe next time then." he says as he rummages around in his pack. When he finds what he's looking for he takes it out and tosses it towards you. You catch the small vial and read that it is labeled Reptilium. When you look up the scaly guy is nowhere to be seen. You head back to camp, smiling at the weird but friendly encounter.

Sex - You tell the male lizan you're game as you begin to pull off your [armor]. His bulge becomes more pronounced as your body comes into view. He quite obviously likes what he sees. Which one of your body parts do you plan to use on the honry male lizan?

Use Dick

(requires at least one penis)

The lizan watches you disrobe with obvious interest as he asks “How do you like to do this?”

You tell him you want his ass, making sure to assert your dominance. He doesn't seem to mind as he turns away and peels off his loincloth, exposing his tight little toned ass with a lift of his glistening [lizanSC] tail. After he has discarded the meager clothing he turns back around to face you, displaying dual bumpy purple lizan dicks, neither of which are small.

Taking charge of the situation you take him by the shoulders and push him down to his knees. He doesn't seem to mind the gentle reminder of your dominance. From the way he begins flicking his tongue at [eachCock] you feel that he is actually quite turned on by the gesture.

[if (cocks = 1) “[if (CockLength < 10) “Like a snake his dripping tongue slithers from his lips and begins to coil around your engorged [cock]. The long muscle wraps you up like a present. You feel a tug and watch as your tongue wrapped [cock] is pulled into the obviously experienced lizan's hot mouth. Then he closes his lips around the base and begins to leisurely bob up and down the full length of your [cock]. Every time he sucks you in his tongue slithers back around your [cock] before he sucks off, unwrapping it in the process. The rapid coiling sensation combined with the awe inspiring suction has you trembling before long.

You place your hand on his cool scaley head for balance, inadvertently causing him to increase tempo. It feels like you're fucking a living hole whose only purpose is to bring you unbearable amounts of pleasure. For a moment you revel in the sensation before reaching down and pulling him off your [cock] with an audible pop. He wipes his arm across his face and, still licking his lips, gives you a bright self satisfied smile.[cock]”]

[if (cockLength > 10) “Like a snake his tongue slithers from his lips and begins to encircle your swollen [cock]. The long saliva dripping muscle covers your [cock] in dripping gobs of spit as it forms coils, slowly pulling your [cock] towards the lizan's obviously experienced mouth. He closes his lips around the first 10 inches of your [cock], unable to fit anymore into his mouth. He drags his lips across your impressive [cock] with obvious relish, maybe its not often he gets to service a cock as big as yours. The combination of the rapid cooling sensation combined with the awe inspiring suction has you trembling before long.

He suddenly twists his head, a movement that almost brings you to your knees. He begins to bob up and down and you watch as your [cock] is partially engulfed again and again. His tongue coils with each fluid motion and unwraps everytime he pulls off. The intense sensation almost brings you to your peak but before you reach that glorious point of no return he pulls off your [cockHead] with an audible pop, licking his lips and giving you a self satisfied

smile.

[if (cocks > 1) “Like a snake his tongue slithers from his lips and begins to encircle your [cockBiggest], the moves on until it has formed at least two coils around each of your cocks. The surprisingly firm snake like organ massages all of your dicks in firm rhythmic strokes. It feels like a family of hot, wet snakes are writhing around [eachCock], squeezing with practiced ease as saliva trickles down your shafts. [if (hasBalls = True) “You groan as you feel his spit drip down your [balls] and [legs]. [if (isBiped = true) “Prompting you to spread your [legs] and lean back, letting the lizan know how much you’re enjoying this odd tongue job.”]

This lizan is obviously used to orally accommodating multiple cocks. His head begins to bob slightly, pulling [eachCock] wrapped in his gloriously talented tongue with it. The lizan rubs your [legs] with his cool scaly hands, causing you to thrust towards his face. After a few minutes of intense cock squeezing he begins to untangle his insanely long tongue from [eachCock]. The process gives your surging erections time to cool down before the main event. Once finished he licks his lips before giving you a self satisfied smile.”]

As you marvel at the lizan’s oral talents he gets on his back and wraps his arms around his well defined calf muscles. You feel like the luckiest guy in the world as you watch the flexible lizan practically fold himself in half. The lean globes of his toned [lizanSC] ass points up at you, a natural part forming to make his naked hole visible. The way his hole winks at you causes [eachCock] to twitch in anticipation.

Before you can get down there and take full advantage of his position his tongue makes an encore appearance. You watch as it slithers down his body, tickling his pert nippples before diving down to his sculpted abdominals. It moves like a snake, wrapping around his dual cocks before the tip dips into his spread hole. He begins to lube up his anal passage, even stretching his hole a little bit. The lizan roughly tongue fucks his own hole, making a show of it as he swishes his tail and pulls his legs closer to his chest. He begins to release soft little sexy gasps as he drills his tongue deeper and deeper into his well relaxed hole. [EachCock] twitches at the sight and soon he slurps his last and retracts his tongue. You can’t help but smile as you push him forward and aim straight for his wet little rosebud.

[if (cockLength < 7) “You push your [cock] into a slickened passage suffused with sweltering heat. The lizan sighs as you begin to rock back and forth inside of him, obviously enjoying the repeated incursions of your [cock] as it moves through him. He widens his legs and teasingly flicks that talented tongue at you. You accept his little challenge and promptly begin roughly pounding the lizan’s upturned hole. Beneath you his two bouncing dicks are already leaking small droplets of pale fluid as each thrust causes them to bounce across his toned little stomach.”]

if (cockLength > 7 and cockLength <= 9) “You push your [cock] into the lizan, his hot wet innards fit your [cock] like a glove. He groans as you begin to move, rocking your [hips] to get a steady rhythm going. He widens his scaled legs, an invitation to drill his upturned ass harder and deeper. An invitation which you gladly accept. As you slowly increase tempo his eyes begin to roll into the back of his head as his little clawed toes curl at the edge of your vision. Every

stroke sends a quiver through your [cock] and soon you're fucking the lizan with gusto, pounding his upturned hole at top speed and forcibly drawing grunts and groans from the lizan as he takes all you have to offer. You can tell he is loving it from the way his eyes roll into the back of his head as his bouncing lizan dicks spray you both with droplets of creamy fluid"]

[if (cockLength > 9) "You push your [cock] into an incredibly tight and quivering anal passage as hot and wet as any cunt. He gasps and bears his teeth as you forcibly stretch his rectal passage. You patiently wait for the vacuum tight opening to begin cooperating. Once the lizan opens his eyes and gives you the go ahead you begin gently rocking back and forth, slowly working your [cock] into his tight little hole. He cringes every time you move, he widens his legs to make room and whimpers with longing as you slowly invade deeper and deeper into his little scaly ass.

Slightly frustrated you shove, causing a sharp yelp to come from your partner. He gives you a withering look before your apologetic smile causes him to smile back at you, excusing your impatience. As you begin again the lizan's hole is finally beginning to open up. You can tell from the slight edge in his voice that your [cock] is breaching unexplored territory. You rock yourself in deeper and deeper until you've completely shafted the guy. His chest heaves as you hold your entire length deep inside of his quivering anal sleeve. It takes him a few moments to get used to your [cock] and once he gives you the go ahead you begin to fuck him at a medium pace. He trembles and grunts, rolling his hips and convulsing as you big cock makes him practically delirious.

After a while you decide to pick up the pace. After a few moderate strokes into the tight wet sleeve you lean forward and press his knees into his chest. The lizan growls as you begin to fuck his little scaly ass as hard as you can. Beneath you his two bumpy purple lizan dicks are leaking a heavy river of sticky pale fluid as your madly pumping [cock] causes them to flap around on his toned and heaving stomach."]

Your thrusts are a echoing smack against his [lizanSC] ass as you begin fucking him with the entire length of your [cock]. Soon your abuse of his prostate becomes too much. His rectal passage clenches tightly as his twin shafts burst, spraying dual torrents of pale cream across everywhere as you fuck him through his orgasm. His flexing tail hole and the sight of his exploding lizan dicks push you over the edge.

[if (cumNormal) "Your [face] twists around a strained groan and you spray your own impressive load deep into the lizan's bowels."]

[if (cumHigh) "Your [face] twists around a deep growl as you pour your load deep into the lizan's bowels. As you fuck your seed deeper into his clenching bowls you can feel some of it gushing out and dripping down your [legs]."]

[if (cumVeryHigh) "Your [face] twists into a chilling howl as you explode deep within the lizan's bowels. As you fuck your seed deep into his bowels his stomach becomes a little less defined, a testament to how much seed you've poured into him. You can even feel it dripping down your [legs]."]

[if (cumExtreme) "Your [face] twists into a titanic roar as [eachCock] explodes with enough force to blast out of the lizan's rectal embrace. Torrents of creamy white fluid blast from

[eachCock]. Soon the lizan's upturned ass and the base of his tail is covered but you're still going. By the time you're finished the lizan is grinning from ear to ear amidst a small lake of cum."]

Spent and breathing hard you collapse. For a second you just lie there [fullChest] against his abs and his legs wrapped around your [hips] while lying in the hot glorious mess of his lizan spunk. Both of you are panting, both of you have been satisfied. Then you push yourself off of him and go to collect your [armor]. He takes it upon himself to clean your [fullChest] with his tongue and as soon as he is done you pull on your [armor]. Before you leave you reward him with a deep kiss, snaking your [tongue] into his mouth before heading back to camp"]

Use Vagina

The lizan watches you disrobe with unabashed interest and asks “How would you like to do this?” you tell him you are going to ride him, which causes a huge grin to spread across his face. He confidently peels off his loin cloth, exposing two bumpy purple erect lizan dicks not lacking in length or girth. He is a stunning visage with his [lizanSC] scales, powerful tail and dual cocks all on display for you, his audience of one.

When the two of you come together he displays his patience by sliding his hands onto your waist and pulling you into a kiss. As your tongues wrestle he massages your lower back and you feel the tension draining from your body.

[if (isLactating = true) “The lizan begins to paint kisses down your neck, leaving a trail of tender suck marks in his wake. When he reaches your [fullChest] he takes one look at your [nipples] and cocks his head to the side in confusion. His tongue slips out to taste a single bead of creamy white, a taste you see repeated on the next breast. He seems to really like your lactating nipples. He opens his mouth wide and latches on to one of your [nipples], his hand playing with another. The tingling sensation he causes is quite pleasant. He quite happily slurps milk from your [nipples] and massages the soft flesh in a way that is both firm and erotic.”]

[else if (hasNippleCunts = true) “When he reaches your [fullChest] he takes one look at your [nipples] and does a double take. For a moment he is at a loss for words but when you clear your throat he quickly collects his wits and sticks his tongue into your fuckable nipples. The sensation is similar to getting your pussy licked but much higher up. You groan as he suckles each nipple in turn while massaging your [chest].”]

[else if (Nipples aren't cunts/lactating) “When he reaches your [fullChest] he takes one look at your [nipples] and dives right in. He makes a show of pulling one into his mouth. All you can see is his [lizanSC] lips but inside you can feel his tongue swirling around your sensitive nipples. He sucks off with a pop that sends a tingle down to your groin before he latches on to the next one and repeats this torturous practice.”]

Once he's done with your [fullChest] you place your hand on his chest and use it to direct him to the ground. Once the lizan is on his back you select the dick you like more and begin sliding your hand up and down its rigid length. The shaft is covered in smooth textured bumps that will make sliding it in your [vagina] very interesting. Your gentle caress causes pearly white fluid to leak from the slit, which you use your thumb to rub across the crown.

When you begin to squat onto his throbbing member he says something about putting his other dick in your [ass] as well. You let him know that is not going to happen and, despite looking a little disappointed, he doesn't push the issue. He watches you with a bitten lip as you

sit upon the swollen head of his lizan dick at the entrance to your [vagina].

[if (vagina is tight/virginal) “With a deep breath you begin to slide the bumpy purple lizan dick up into your [vagina]. The sensation of being stretched wide hits you like a hammer and you have to go slow to keep from calling out. The lizan dick is like a hot slab of meat slowly, gloriously making its way deeper and deeper into your body. The bumps on its purple surface only serve to heighten the sensation as the irregular pattern rubs against your vaginal walls.

You don’t quite make it to the base. Once you are filled to capacity you begin to slide back up, watching the lizan’s yellow eyes roll.

“By Marae you’re tight.” He sighs. Smooth scaly hands slide onto your [hips] but don’t force you down. You can feel his other rigid member sliding up and down the crevice of your [ass], but not attempting to enter you. After you’ve gotten a little used to the girthy lizan dick you begin to increase the pace, feeling an intense pleasure erupting inside your [vagina] and soon you are sliding up and down his entire length, trembling with ecstasy.”]

[if (vagina is loose) “With a sigh you begin to slide the bumpy purple lizan dick up into your [vagina]. A dick this size would be a hot fuck by itself but the bumpy purple surface is making the experience delightfully erotic. His girthy dick his hot and glorious, you feel as though you could just slide down its bumpy purple surface all day.

You move slowly, looking down into his yellow eyes as he bites his lip. His other lizan dick slides up and down the crevice of your [ass], not an attempt to enter but a result of the two being so close together. After a few minutes your slow ride becomes unbearable to the lizan. His hands take you by the [hips]. With a groan he begins to pull while thrusting upward into you. You release a hoarse groan as the sensations caused by his dick intensifies. Soon you are trembling and from the way he’s fucking you it appears the lizan is enjoying every second of your ecstasy.”]

[if (vagina is gaped) “Grinning with confidence you slide down the entire length of the lizan’s bumpy purple dick in one go. While he is reasonably well endowed you know from experience that you can fit more. His other bumpy purple member is sliding up the crevice of your [ass], when you grab it he gives you his biggest, sexiest grin obviously thinking you are going to take him up on his earlier offer to fuck both your [vagina] and [asshole] at the same time.

With a grin you lift up and press the twin dicks together. The lizan’s jaw drops as your [vagina] slowly engulfs both of his fuck poles inch by inch. The lizan groans as you begin to slide up and down, slowly allowing his trembling cocks get used to being pushed together and enveloped. Meanwhile the lizan himself is obviously at your mercy. His body cringes, his voice whines, his toes flex and his eyes roll as you slowly ride both of his peckers.

You decide to speed up, increasing the glorious stretching sensation of his bliss inducing fuck poles. Soon the he completely loses control and begins thrusting into your [vagina] with rough thrusts that can only signal an impending orgasm. You meet his mad lust with your own, the two of your bodies creating a sound akin to applause.

[if (hasCock = true) “As he fucks your [vagina] with all that he’s worth you take the liberty of grabbing your [cock] and stroking the already rock hard sex organ to further increase the intensity of your own sexual stimulation. He looks down at your [cock], his tongue sliding across his lips displaying his obvious interest. You are soon lost in the bliss of your impending orgasm as he continues to pound upward into your [vagina] with steadily mounting force.”]

[if (pussy is loose or tight/virginal) “He looks up at you in desperation as you stare down at him. Suddenly his entire body slams upward as he grabs you by the waist and explodes deep within your [vagina]. [if (hasTail = true) “His other lizan cock explodes as well, painting your raised [tail] and [ass] with a generous coating of funky lizan spunk.”] [if (hasTail = false) “His other lizan dick explodes as well, painting your [ass] and lower back with a generous coating of lizan baby batter.”]

[if (pussy is Gaped) “His eyes roll back, his body trembles and his teeth are clenched and you know he is completely at your mercy. So you ride him hard until his scaly hands grab you by the waist as he slams upwards and holds on for dear life.

You groan in triumph as you are filled with twin torrents of lizan jizz. Your [face] twists into a grimace of pure pleasure as the lizan’s shivering, bumpy purple cocks being shoved so deep pushes you.”]

[if (hasCock = false) “You begin to cum so hard your body trembles. Your [vagina] tingles and your entire being feels as if you’re falling through an ocean of pure ecstasy. Your body quakes as your climax rages on, filling your entire being with so much pleasure you can’t take it. Just before you feel as if you can’t take it anymore the sensation begins to recede, leaving your body achingly sensitive in its wake.”]

[if (hasCock = true) “As you reach the point of no return both your [vagina] and [cock] begin to tremble. With [eyes] lifted to the sky you scream a scream of pure unadulterated pleasure as your [vagina] floods while your [cock] explodes.

The dual sensations are tidal waves of euphoria crashing through your body, increasing in intensity as you paint the lizan’s chest, stomach and thighs and pelvis. When the sensations streaming from your sex organs reach their apex you feel as if you’re about to explode. Just in time the sensation diminishes, leaving you tingly and overly sensitive in its wake.”]

For a second you lie there [fullChest] against his [lizanSC] abs. Around the two of you lies the hot glorious mess of your combined sexual fluids. Both of you are panting, both of you are satisfied. Then you push yourself off of him and collect your [armor]. He takes it upon himself to clean your [fullChest] and [vagina] with his long tongue and as soon as he is done you pull on your [armor]. Before you leave you reward him with a deep kiss, snaking your [tongue] into his mouth before heading back to camp”]
