# All Articles In Previous Editions Of The Quibbler

Here begins a list of all articles published in previous editions of the Quibbler. It lists their title, a short description of the article and, if possible, the author (without /u/). This list can be used for reference in case you want to find a specific article, or as inspiration to write your own article!

All articles are colour-coded based on the house of the author: **yellow for Hufflepuff**, **blue for Ravenclaw**, **green for Slytherin** and **red for Gryffindor**. If an article has been written by two authors of different houses, each author's name will be coloured according to their own house and the rest of the information will have colours of both houses. Grey articles are uncredited and black articles either have too many authors to properly credit (the classifieds, for example, consist of submissions from a whole bunch of people!) or have that colour because the author's house is unknown. If there are any mistakes in this list, [please contact Eldis\\_!](#)
