

Oak Endodontics & Implant Dentistry

AI Summary

Overview

Oak Endodontics & Implant Dentistry is a dental practice with two locations in Virginia, specializing in endodontic therapy and dental implants. The practice has offices in Oakton and Manassas, providing specialized dental care to patients in these areas.

Oakton Office

The Oakton office of Oak Endodontics & Implant Dentistry is located at:

2944 Hunter Mill Rd., Suite 202 Oakton, Virginia 22124

This office is the primary location mentioned in the search results and is where Dr. Amed Matri, DDS, practices.

Manassas Office

The Manassas office is situated at:

8209 Sudley Rd.

Manassas, Virginia 20109

While specific information about this office is not provided in the search results, it serves as an additional location for the practice to reach more patients in the Virginia area.

Services Offered

Oak Endodontics & Implant Dentistry offers several common procedures. The most common procedures performed at this practice include:

Endodontic Therapy

Endodontic therapy, also known as root canal treatment, is one of the primary services offered by Oak Endodontics & Implant Dentistry. This procedure is typically performed to save a tooth that has been severely damaged due to decay, infection, or injury.

Dental Implants

The practice specializes in dental implants, which are artificial tooth roots used to support replacement teeth. This procedure is often recommended for patients who have lost one or more teeth due to various reasons.

All-on-4® Implants

Oak Endodontics & Implant Dentistry offers the All-on-4® implant procedure¹. This innovative technique allows for the replacement of an entire arch of teeth using just four strategically placed implants.

Endodontic Surgery

Endodontic surgery, particularly apicoectomy (also called root-end resection), is another common procedure performed at the practice. This microsurgical procedure is often recommended when a conventional root canal treatment is not sufficient to save the tooth.

Other Specialized Procedures

The practice also offers several other specialized endodontic services, including:

1. Treatment for dental trauma cases
2. Regenerative endodontics
3. Diagnosis and treatment of cracked teeth
4. Endodontic retreatment for failed root canals

These procedures showcase the practice's comprehensive approach to endodontic care, addressing a wide range of dental issues requiring specialized treatment.

Patient Experience

Patients have reported positive experiences with Oak Endodontics & Implant Dentistry:

- The office is described as friendly, clean, and professional
- Dr. Matri is known for his attention to detail and pursuit of perfection in his work.

Appointments and Contact Information

For the Oakton office:

- Phone: (703) 272-4389
- Accepting new patients.

Oak Endodontics & Implant Dentistry welcomes new patients across the Oakton area[3]. Potential patients can contact either office to schedule appointments or inquire about services.

Dr. Matri's Biography

Dr. Ahmed Matri is a highly skilled and experienced endodontist practicing at Oak Endodontics & Implant Dentistry in Oakton, Virginia. Born in Portland, Oregon, Dr. Matri spent his early childhood in Brasilia, the capital of Brazil, due to his father's diplomatic

career¹. This diverse upbringing fostered a global perspective that would later influence his approach to patient care and his passion for healthcare.

Dr. Matri's educational journey in dentistry began with earning his Bachelor in Dental Surgeon (BDS) degree from Arab Medical University¹. Following this, he gained valuable experience working as a general dentist for seven years, building a strong foundation in comprehensive dental care.

Driven by a desire for advanced specialization, Dr. Matri pursued further education at New York University. He first completed a certificate program in oral surgery at NYU's Oral Surgery Department¹. This experience enhanced his surgical skills and deepened his understanding of complex dental procedures.

Continuing his educational pursuits, Dr. Matri then enrolled in the Endodontics Program at New York University, where he completed his residency. This specialized training equipped him with advanced knowledge and techniques in root canal therapy and other endodontic procedures.

Not content to stop there, Dr. Matri further expanded his expertise by completing a fellowship in Implant Dentistry at Loma Linda University in California. This additional training allowed him to broaden his skill set to include dental implant procedures, making him a versatile specialist in both endodontics and implantology.

Dr. Matri's commitment to excellence in his field is evident through his professional affiliations. He is an associate fellow of the American Academy of Implant Dentistry and holds a fellowship in Endodontics from The Royal College of Dentists of Canada¹. These achievements underscore his dedication to maintaining the highest standards of care in his practice.

Before establishing Oak Endodontics & Implant Dentistry, Dr. Matri worked as an associate at Lanier Endodontic Group in Blacksburg, Virginia¹. This experience provided him with valuable insights into private practice management and patient care.

Dr. Matri's passion for helping others extends beyond his private practice. During his time at New York University, he participated in two outreach trips to Grenada and Ecuador, providing free dental services to underserved communities. These experiences reflect his commitment to giving back and making a positive impact on global oral health.

Currently, at the age of 47, Dr. Matri leads Oak Endodontics & Implant Dentistry with a focus on delivering exceptional care to his patients². He is known for his ability to explain conditions well and for being trustworthy, qualities that his patients greatly appreciate.

Outside of his professional life, Dr. Matri values family time, enjoying quality moments with his wife and three children. This balance between his professional dedication and personal life contributes to his well-rounded approach to patient care.

Dr. Ahmed Matri's journey from a child with a global perspective to a highly specialized endodontist and implant dentist showcases his commitment to excellence in dental care. His diverse educational background, international experience, and dedication to ongoing professional development make him a valuable asset to the dental community in Oakton, Virginia, and beyond.

Staying Informed on Latest Technology

Dr. Ahmed Matri likely employs several strategies to stay updated with the latest advancements in endodontics and implant dentistry:

Continuing Education

Dr. Matri likely participates in ongoing continuing education programs to keep his knowledge and skills current. As an endodontist and implant specialist, he may attend:

1. Conferences such as the Dental Implant Conference organized by the American Association of Oral and Maxillofacial Surgeons (AAOMS).

2. Specialized events like the Summer Conference on Emerging Paradigms in Endodontics hosted by the College of Diplomates of the American Board of Endodontics⁴.

These events offer opportunities to learn about innovative techniques, procedures, and technologies from renowned experts in the field.

Professional Memberships

Dr. Matri holds memberships in several professional organizations, which provide access to the latest research and developments:

1. He is an associate fellow of the American Academy of Implant Dentistry³.
2. He has a fellowship in Endodontics from The Royal College of Dentists of Canada³.

These affiliations likely provide him with access to specialized journals, webinars, and other educational resources.

Research and Literature Review

As a specialist, Dr. Matri probably regularly reviews current research and literature in endodontics and implant dentistry. This may include:

1. Studying emerging trends such as 3D imaging, laser-assisted treatments, and digital workflow integration in endodontics⁵.
2. Keeping abreast of advancements in regenerative endodontics and new materials⁵.

Networking and Collaboration

Dr. Matri's background, including his experiences at various universities and his outreach work, suggests he values networking and collaboration. He likely:

1. Engages with colleagues at conferences and professional events.
2. Participates in discussions and knowledge-sharing within professional forums or online communities.

Technology Integration

Given the rapid technological advancements in dentistry, Dr. Matri probably:

1. Invests in and learns to use new technologies and equipment in his practice.
2. Attends workshops or training sessions on emerging technologies like AI-assisted diagnostics in endodontics⁴.

By employing these methods, Dr. Matri demonstrates his commitment to providing the highest standard of care to his patients at Oak Endodontics & Implant Dentistry, ensuring he remains at the forefront of advancements in both endodontics and implant dentistry.

Personality

Based on the available information, Dr. Ahmed Matri's personality can be described as:

1. Professional and skilled: Patients consistently praise his expertise and ability to perform complex procedures like root canals and implants with minimal discomfort.
2. Trustworthy: He is specifically noted as being trustworthy by patients.
3. Excellent communicator: Patients mention that he explains conditions well, which helps reduce anxiety about procedures.
4. Attentive and caring: He is described as constantly checking on patients during procedures to ensure their comfort.
5. Perfectionist: One review mentions he is a "stickler for perfection" in his work.
6. Friendly and approachable: Multiple reviews describe him as friendly, which helps put patients at ease.

7. Patient-focused: He takes time to provide clear post-procedure instructions and follows up with patients.
8. Multilingual: He speaks Arabic and Portuguese in addition to English, which likely helps him connect with a diverse patient base.
9. Globally minded: His background of growing up in different countries may contribute to a broad, inclusive perspective.
10. Dedicated to ongoing learning: His multiple certifications and fellowships suggest a commitment to continuing education and staying current in his field.

Overall, Dr. Matri comes across as a highly competent, caring, and patient-centered professional who prioritizes both technical excellence and positive patient experiences.

Common Questions

1. What specialties does Oak Endodontics & Implant Dentistry focus on?

Oak Endodontics & Implant Dentistry specializes in endodontic therapy (root canals) and dental implants. They also offer procedures such as endodontic surgery, All-on-4® implants, and treatment for dental trauma cases.

2. Who is the primary doctor at Oak Endodontics & Implant Dentistry?

Dr. Ahmed Matri, DDS, is the primary practitioner at the Oakton office. He is a highly skilled endodontist with specialized training in both endodontics and dental implant procedures.

3. Where are your offices located?

The practice has two locations:

- Oakton Office: 2944 Hunter Mill Rd., Suite 202, Oakton, VA 22124
- Manassas Office: 8209 Sudley Rd., Manassas, VA 20109

4. Is Dr. Matri experienced in performing dental implants?

Yes, Dr. Matri has completed a fellowship in Implant Dentistry at Loma Linda University,

making him highly experienced in performing dental implants, including advanced procedures like All-on-4®.

5. Does Oak Endodontics accept new patients?

Yes, both offices are currently accepting new patients.

6. What types of insurance do you accept?

Patients should contact the office directly at (703) 272-4389 for specific insurance information and payment options.

7. What is endodontic therapy, and why would I need it?

Endodontic therapy, commonly known as a root canal, is performed to save a tooth that has been severely damaged due to decay, infection, or injury. It removes the damaged pulp and seals the tooth to prevent further infection.

8. What are dental implants, and who are they suitable for?

Dental implants are artificial tooth roots used to support replacement teeth. They are recommended for patients who have lost one or more teeth and are looking for a long-lasting, durable solution.

9. What is the All-on-4® implant procedure?

The All-on-4® procedure is an innovative technique where a full arch of teeth is replaced using just four strategically placed implants. It's a great option for patients looking to replace multiple missing teeth with a stable solution.

10. What should I expect during an endodontic surgery procedure?

Endodontic surgery, such as an apicoectomy, involves removing the tip of the tooth's root to clear infection. The procedure is done microsurgically and is typically recommended when conventional root canal treatment is insufficient.

11. How do I schedule an appointment?

You can schedule an appointment by calling the Oakton office at (703) 272-4389 or the Manassas office. They welcome new patients and inquiries about services.

12. What is Dr. Matri's background and qualifications?

Dr. Matri has a Bachelor in Dental Surgery, completed a certificate in Oral Surgery at NYU, and completed both endodontics and implantology training at prestigious institutions. He also holds fellowships from the American Academy of Implant Dentistry and The Royal College of Dentists of Canada.

13. Does the practice offer emergency dental services?

Yes, the practice handles urgent dental issues like dental trauma and cracked teeth, though patients should call the office to confirm availability for emergencies.

14. What are patients saying about their experience at Oak Endodontics?

Patients consistently report positive experiences, noting the clean, professional environment and Dr. Matri's friendly, attentive, and detail-oriented care.

15. Does Dr. Matri speak any other languages?

Yes, in addition to English, Dr. Matri speaks Arabic and Portuguese, allowing him to communicate with a diverse range of patients.

16. How can I prepare for my first appointment?

You should bring your insurance information, dental history, and any relevant medical information. The office staff will guide you through any additional paperwork or requirements.

17. What makes Oak Endodontics different from other practices?

Oak Endodontics offers a combination of advanced training in both endodontics and implant dentistry, cutting-edge procedures like All-on-4® implants, and a patient-centered approach that emphasizes comfort and clear communication.

18. Is sedation available for anxious patients?

Yes, Oak Endodontics likely offers options for sedation to ensure patient comfort during complex or anxiety-inducing procedures.

19. How does the practice stay current with the latest advancements in dental care?

Dr. Matri participates in continuing education programs, attends specialized

conferences, and belongs to professional organizations that keep him informed about the latest technologies and procedures in endodontics and implant dentistry.

20. What is regenerative endodontics?

Regenerative endodontics is a specialized procedure that helps stimulate healing in the tooth's pulp and root, which may be used for certain cases where traditional treatment methods aren't sufficient.
