

Dear Parents and Students:

Below you will find today's lesson template. Please keep in mind the following:

- Lessons will be posted by 7:30 am the following instructional day. *For example, Lessons from Monday will be posted by 7:30 am on Tuesday morning. Lessons from Friday will be posted by 7:30 am on Monday.*
- The videos linked are live lessons that have been recorded and are likely not edited. They have been limited to 20 minutes or less in length. Some teachers have collaborated on video recording and will be sharing videos across classes.
- The lessons posted mirror the daily lessons that have taken place in the classroom. Each lesson will include a "check for student understanding" that should be submitted. This may be the exact assignment given in class or it may be an abbreviated assignment.
- Students will:
 - Watch the recorded video lessons
 - Complete the assigned activity by the due date.
- Teachers will:
 - Provide feedback in the form of comments, Google Classroom comments, an email, acknowledgement of work completion in Infinite Campus, etc. within 3 days of work submission.
 - Update Infinite Campus by the end of each week to communicate student work that is missing or incomplete.
 - Reply to emails/voicemail from parents and students within 24 hours.

Daily Learning Expectations for **Honors Biology: Ms. Ryman**

Monday, May 10th, 2021

Learning Goal: I can compare & contrast a historical pandemic with the current COVID-19 pandemic.

Virtual Lesson: [Photosynthesis Notes](#) - Join the live Google Meet during class time to hear today's pandemic presentations & participate

Directions:

1. Today in class we are seeing Pandemic Project Presentations. If you are absent today, plan on presenting tomorrow. If you will be absent tomorrow as well contact Ms. Ryman & Ms. Manning to schedule a presentation time.
2. Complete the Enzyme Concept Check in Google Classroom.
3. Take Cornell Notes on Photosynthesis using the virtual lesson video above, the recorded lecture on the Unit 6 page of the class website, or the slides on the Unit 6 page of the class website. Diagrams should be completed on the Photosynthesis Diagrams Worksheet.

Tuesday, May 11th, 2021

Learning Goal: I can compare & contrast a historical pandemic with the current COVID-19 pandemic.	Virtual Lesson: No Video Today - Join the live Google Meet during class time to hear today's pandemic presentations & participate Directions: 1. Contact Ms. Ryman & Ms. Manning to schedule a presentation time if you still have not presented your pandemic project to the class. 2. Turn in your Cornell Notes on Photosynthesis to today's assignment spot in Google Classroom. 3. Make a copy of & complete the Leaf & Chloroplast Anatomy Worksheet from the Unit 6 page of the class website. This is due tomorrow.
---	---

Wednesday, May 12th, 2021

Learning Goal: I can write the equation for photosynthesis, identify organisms that perform photosynthesis, label the structures of the chloroplast, and trace out the steps of photosynthesis.	Virtual Lesson: Cellular Respiration Notes Directions: 1. Turn in your Leaf & Chloroplast Anatomy Worksheet to today's assignment spot on Google Classroom. 2. Contact Ms. Manning about making up the Photosynthesis Lab you missed today. 3. Complete the Photosynthesis Video Worksheet linked on the Unit 6 page of the class website. The video link is below the worksheet link. Use your notes & diagrams page to complete question #17 on the second page. Turn in the worksheet to Google Classroom when you are done. 4. Take Cornell Notes on Cellular Respiration using the virtual lesson video above or the recorded lecture or slides on the Unit 6 page of the class website. Diagrams are on a separate paper linked on the class website. Only the first diagram needs to be labeled, the rest are for reference.
