

Perspective

By Sammie S.

My picture,perspective,was taken on my Iphone XR for a photography assignment called 2 rules-5 pictures.The instructions were to use 2 of the 10 rules of photography and I used framing for this specific picture.In the picture I am holding a bracelet to frame the sun.I made sure that I got the bracelet close to the phone so it would look much larger than the sun and be in focus so that the sun and the background would be blurry to make the photo interesting.
