Privacy Policy

1. Data Collected
We only store your local settings via `chrome.storage.sync`:

- Maximum playback speed

- Speed-change increment

- Keyboard shortcuts

No personal data (e.g. browsing history, IP address) is collected or transmitted.

2. How We Use Your Data

- To remember your preferences across browsing sessions

- To sync settings across your devices (if Chrome Sync is enabled)

3. Storage & Security

- All data remains in your browser's storage.

- Chrome Sync encryption applies when syncing; no additional security measures are implemented by the extension.

4. Third-Party Sharing
We do **not** share, sell, or rent any data to third parties.

5. Your Controls

- **View or Change:** Use the extension popup.

- **Delete Data:** Remove the extension or clear its data in Chrome's site settings.

- **Update Settings:** Adjust anytime via the popup.

6. Policy Updates
We may update this policy; changes will appear here with a new effective date.

7. Contact
