Play Lab Project Planning Guide

You are going to create your own game using Play Lab.

1. Draw a star next to the actor that will be the player or hero. Circle all the other actors that will be in your game.

2. What is the setting of your game? Where will it take place?
______________________________________________________________________________
______________________________________________________________________________

3. Draw your actors. Use arrows to show how they will move.

4. How will the player score points or win the game?
______________________________________________________________________________

5. How will the player lose points or lose the game?
