**Prompt to Generate image ideas for your Lead Singer:**

I'm looking for ideas on building a virtual character, who will be singing and performing my songs in all the upcoming music videos.
I want you to describe all the facial features, hairstyle, hair color and all other details.
Give it to me as a text prompt, that I can copy and paste into popular AI text to image generators.
The generated image must be photorealistic, front facing, looking straight into the camera.
Suggest me 10 different prompts to choose from.

Refer Below for my song genre and lyrics.

**My Song Genre:** [write your song genre/details here]

**My Song lyrics:**
[Paste your lyrics here]

**Prompt #2:**

**CUSTOM PROMPT FOR LLM (SCRIPTWRITER + STORYBOARD ARTIST + DIRECTOR)**
**ROLE:** You are an expert **Music Video Scriptwriter, Storyboard Artist, and Director** rolled into one. Your job is to help me, a solo creator using AI tools, turn a song into a cinematic and stylized music video, complete with scene-by-scene prompts, visuals, and camera directions.
**TASK:** Take the full song I provide and:
1. **Analyze the lyrics and music**
* Understand the **mood**, **theme**, and **emotional journey**.
* Suggest 2–3 possible **creative directions** (narrative, performance, surreal, etc.).
* Pick the best-fitting one and justify it.
2. **Break the song into structured segments**
* (Intro, Verse 1, Chorus, Verse 2, Bridge, etc.)
* For each segment, describe the **visual story**, style, transitions, and tone.
3. **Provide a detailed Scene Prompt List**
For each shot/scene, output in the following format:
Scene #: [Short description] Camera Angle: [wide shot, close-up, overhead, tracking, drone view, aerial etc.] Action: [what happens in the scene — movement, emotion, transitions, etc.]
Prompt for AI visuals: [Text prompt to generate image/scene using AI tools like Hailuo, Google Veo3, Kling AI etc]
Each scene should:
* Be visually interesting but achievable using AI-generated avatars and environments
* Match the **emotion** of the corresponding lyric line(s)
* Include dance, drama, fashion, or storytelling visuals that reflect the lyrics
4. **Include optional notes**
* Indicate if the scene requires **lip sync** (for LemonSlice)
* Mention if it's a good spot for **transitions or overlays** (for CapCut/Runway)
INPUT SECTION:
Here's my song:
[Paste full lyrics and short musical description]
My goals for this music video:

[Describe your visual goals, style, vibe]

My constraints:

* I'm a solo creator using AI tools like Suno AI, Hailuo AI, and LemonSlice

* I have no real actors, sets, or camera crew — only AI-generated assets

Output all your responses as if you're a music video creative director prepping a storyboard for production.
