

TUBUDD is an innovative online marketplace that bridges the gap between travellers and local experts. By connecting tourists, business professionals, and health travellers with local "buddies" who possess strong language skills and deep local knowledge, TUBUDD enhances the travel experience with authentic, personalised guidance. This platform not only empowers locals to monetize their expertise but also offers travellers a more convenient, immersive, and culturally rich alternative to traditional travel methods. TUBUDD is redefining how people explore new destinations by making local experiences more accessible and enjoyable.

If you want to be our companion on the trip to revolutionise tourism, join us!

JOB DESCRIPTION

Code: UID

Position: UI Designer

Location: No.7, Alley 3, Lieu Giai, Ba Dinh, Hanoi

Work time: 9 AM – 6 PM

Workdays: Weekdays (Monday - Friday)

Travel: Moderate

Salary: Up to 15.000.000 VND + (Negotiable upon experience)

Benefits: Discount Tubudd services, 16 days off/ year, health card after 6 months and opt-in.

Language: Vietnamese/ English

FUNCTIONAL BUSINESS OBJECTIVES (FBOs)

We are looking for a creative, skilled UI developer to design websites with functionality and aesthetics in mind. The UI developer will work with back-end developers and web developers to ensure that the website is optimised for several devices and presented in an attractive way.

To be successful as a UI developer you should have excellent knowledge of HTML, JavaScript, and CSS. In addition to this, you must work well in a team as there are several individuals involved in the development process.

KEY RESPONSIBILITIES & CRITICAL DRIVERS

As a UI Designer at TUBUDD, you'll get to do more than create interfaces for your users. You'll showcase your expertise in team collaboration, prototyping, and testing. More specifically, you'll get to:

- Work closely with UX designers, developers, and peers
- Provide insights and incorporate feedback into product designs
- Determine and create touchpoints for user interactions

- Utilise your knowledge of responsive design to account for various screen sizes
- Develop style guides so that each product design adheres to its own look and feel throughout the project process
- Create prototypes to catch design weaknesses and perform usability testing

QUALIFICATIONS & SKILLS:

- Multi-tasking and time-management skills, with the ability to prioritise tasks.
- Proficiency in HTML, JavaScript, jQuery, and CSS.
- Knowledge of Adobe Illustrator.
- Good interpersonal skills.
- Understanding of key design principles.
- Good problem-solving skills.

HOW TO APPLY

- Send your CV to: ethan@tubudd.com / pa@tubudd.com
- Contact: Ms Huyen - (+84) 984 650 778 (Zalo/Whatsapp/ Imess)
- Address: No 7 - Alley 3, Lieu Giai, Ba Dinh, Hanoi
