NAI offers the Armed Services Vocational Aptitude Battery (ASVAB) Exam – April 15

North Allegheny Intermediate High School is offering the **Armed Services Vocational Aptitude Battery (ASVAB) Exam** on **April 15 at 7:30 AM in the NAI Cafeteria**. This exam is available for **NASH and NAI** students who are interested in gaining insight into their strengths and how they align with various career paths. Students who would like to take the ASVAB should **sign up by completing THIS FORM or stop by the NASH main office by Friday, April 11th.** The ASVAB is an aptitude test that helps students explore a wide range of career options—whether they plan to attend college, pursue a trade, enter the workforce, or consider military service. While the ASVAB can provide a score for those interested in military enlistment, **taking the exam does not commit a student to military service**. Test scores are **not** shared with the military unless a student or their family provides permission.

The exam takes approximately two hours and includes sections on mathematics, word knowledge, paragraph comprehension, and more. Following the test, students will receive a detailed interpretation of their results to help them make informed decisions about their future. This opportunity is **free of charge**, including test administration and post-exam interpretation. For more information, please contact **Lt. Col. Don Accamando, Senior Aerospace Instructor for the NA Air Force Junior ROTC Program, at daccamando1@northallegheny.org**.

ALICE Training Information

Dear Parents/Guardians,

We hope this message finds you well. Our district is expanding ALICE training to students now that all staff have completed it. ALICE enhances, but doesn't replace, our Standard Response Protocol (SRP), providing more options during a crisis.

ALICE (Alert, Lockdown, Inform, Counter, Evacuate) is a proactive approach to preparing for and responding to violent incidents. It empowers students and staff to make informed decisions in emergencies. ALICE goes beyond traditional lockdowns, encouraging individuals to assess their specific situation and take the most appropriate action, such as

evacuating if safe, using barricades, or, if necessary and age-appropriate, actively countering an intruder as a last resort.

We understand that discussing safety measures can be concerning to some students. However, research shows that preparedness is crucial for helping to create a secure learning environment. In February, each school will provide an age-appropriate overview of ALICE to K-12 students, introducing its key components and reviewing our SRP. These overviews are not full ALICE training, but rather introductions designed to be age appropriate.

The safety of our students and staff remains our top priority. ALICE training will strengthen our existing safety protocols, enhancing our preparedness and response capabilities. If you have any questions or concerns regarding ALICE or any aspect of our safety plan, please don't hesitate to contact us. We value your input and partnership in ensuring a safe school community.

CLICK HERE for additional SRP and ALICE information, including the overviews that will be shared with students.

Thank you for your continued support in creating a secure and nurturing environment for our students.

Sincerely,
Chief Eric Harpster
Chief of NASD School Police
Safety & Security Coordinator
North Allegheny Police Department
