How to Take Your Students on a Virtual Field Trip

GoogleCardboard was cool. Streetview is nifty. But some of the new advances in VR are crazy fun (and, yes, educational). Plus, we have all the resources right in the building to take you anywhere in the world. Though you can use 'headsets' to accomplish the field trips, these often get gross and dizzying. Consider just using an iPad with some headphones to accomplish the same thing. But, where can I go, and what can I do?

I will be attempting to add to this list, but for now here are some of the applications and places they can take you:

Sites with Experiences

Youtube 360	Curated Education Youtube360 VR experiences: Playlist Playlist 2	ABC News VR	New York Times AppleApp
Ryot (Video Stories)		National Parks	CNN VR
Google Streetview		With.in	USA Today VR (Apple App)
GoogleExpeditions	GoogleTourBuilder	Smithsonian Tours	Virtual Biomes (desert, rainforest, temperate): https://askabiologist.asu.edu/explore/Virtual-360-Biomes
GoogleTreks	StorySpheres		Google Treks VR (click on the pins on the maps to have the 360 view come up): https://www.google.com/maps/about/treks/#/grid
Google Arts & Culture	360cities		Antartica: https://historyview.org/library/antarctica/skinned/
VR Flickr	Thinglink 360		Big Island Lava Tubes: https://historyview.org/library/big-island-lava-tube/skinned/
360Flickr	Jaunt iPad App	roundme.com	My PDX Arrival Uluru Kata Tjuta National Park Stay Strong Mural Nathan Phillips Square Toronto
