

Hybrid Learning Community of Practice

➤ Here are the [highlighted resources](#) for Session 5.

Key Questions: Care For Our People in Reopening Plan

- ❑ How do you feel when you know you are being cared for? What do you imagine others might need to feel in order to feel cared for?
- ❑ How do you actualize that? How do you get people what they need?
- ❑ What fears and obstacles can you anticipate emerging this fall, and how do you proactively plan for them?
- ❑ How will you keep the lines of communication open, accessible, and authentic? What skills, structure and support do you need to move from input and stable policy to a dialogue and iterative engagement?
- ❑ What will you do in October, December, Feb. to keep in touch with what people's needs are and how they are doing? Do you have a SIMPLE and easy to execute plan?
- ❑ Do your personnel policies reflect your values and the changing landscape?
