

## Miss Mattioli's Chemistry Plans Tuesday 2/11

Hello!

Today you are going to learn about intermolecular forces (forces in between different molecules). Please follow these instructions (you can work with a partner):

1. Watch this video describing the types of intermolecular forces (IMFs). **Stop at 5:20**

- a. <https://www.youtube.com/watch?v=08kGgrqaZXA>

2. While you watch, complete the half-sheet handout that goes along with it.
3. Take the following Google quiz to check your understanding (this is not for a grade):

[https://docs.google.com/forms/d/e/1FAIpQLSfqmsAIBrv4wGPGIfUFFZaHn3T2Bcxd0N1UyDwzDXOd0PIHLw/viewform?usp=sf\\_link](https://docs.google.com/forms/d/e/1FAIpQLSfqmsAIBrv4wGPGIfUFFZaHn3T2Bcxd0N1UyDwzDXOd0PIHLw/viewform?usp=sf_link)

4. If you need/want more information about IMFs, look under Unit 3 on my website. There is a powerpoint about IMFs.
5. Once you have finished learning about IMFs, continue working on your **unit 3 review guide**.  
**Your test is on Friday!**

If you have any questions, please email me. We will go over what you have learned about IMFs together in class on Thursday.
