Talking Points

- **LUCHA** helped elect incredible candidates in 2022 by knocking on over 449,000 doors and making over 126,000 calls to Arizona voters. Their work builds power among Arizona's working and Latinx families to advance social, racial and economic justice.
- **RAZA** knocked on over 150,000 doors and sent over 732,000 texts in 2022 to connect rural Arizonans to civic engagement & community action to increase voter participation. In 2023, RAZA advocated for the state budget to deliver more than \$355 million in direct rural investments to rural Arizona.
- **Mothering Justice** contacted over 242,000 voters and sent 204,000 mailers in 2022 in their mission to return decision-making power to mothers of color.

Mothering Justice empowers mothers and caregivers to champion policies and endorse candidates that reflect their values.

- **We The People**'s long-term organizing to register farmworkers in 2022 helped [secure the MI trifecta](#) by clinching Betsy Coffia's win in the 103rd House district by 765 votes. We The People builds long-term deep organizing infrastructure to foster stable, long-lasting alliances across urban, suburban, and rural communities that are explicitly multi-racial with a racial justice lens.
- **PA United** helped flip PA for President Biden in 2020 by making over 3 million phone calls to voters across Western PA. In 2022, their members helped take back the majority in the House by deep canvassing people who were unlikely to vote (young people, people of color, and infrequent voters) and completing 264,000 phone calls. PA United is building up Western Pennsylvania's permanent field infrastructure to be able to knock one million doors in 2024!
- **PA Stands Up** knocked on over 153,000 doors and made 309,000 phone calls in 2022 to deliver wins to Governor Shapiro, Senator Fetterman, and 18 down ballot candidates. Their deep investments in rural and small town Pennsylvania connect working people and families to power and lead to powerful results.
- **Citizen Action** engaged progressive voters by making over 108,000 dials and sending 418,000 texts in 2022. In 2023, they helped secure a majority on the Wisconsin Supreme Court by making over 56,000 phone calls and knocking 2,500 doors.
- **WISDOM** engaged progressive voters by completing 80,000 combined door knocks and phone calls in 2022. WISDOM has been hard at work in 2023 establishing a grassroots and locally-led integrated voter engagement program in rural and small-town Wisconsin.
