

★ AUDITORIUM

The body:

- External injury coming from the back of the head; **blunt force trauma**, and the blood is very thick and almost black
- Back of the skull is broken, left arm is also broken
- Looks like she was hit by a baseball bat
- Left arm is covered in **dark bruises** even outside where the bone is broken, there are **four tally marks** on the inside of her left wrist
- Both livor mortis and rigor mortis has set in, she's been on her back for several hours to days after death
- She has a PDA, two blue ballpoint pens and a key on her person
- PDA information: Aiko Okane, 3-C; her last message was her @-ing the student council members to remind them that they have a meeting after school
- Dirt under the nails
- Also smears of dark blue (Phthalocyanine Blue) paint on the back hem of her skirt + tights
- Has a key to Student Council room, currently in Ain's possession

The area:

- There is a **smear of blood on the top edge of the case** (with the "doll like body" for the auction)
- No catwalk, the ceiling is two stories high

The "Doll" Body:

- Unknown class (unrecognized by NPC students) but appears to be a third year
- Androgynous but female upon close inspection, wearing casual clothing
- Wound in the side/abdomen, murder weapon unable to be parsed

Similarities between the two bodies:

- (likely) Same class year
- Female
- Pale skin, black hair, dark brown eyes

★ BATHROOMS BY 2-D

- The ceiling above the sinks is partially collapsed
- The section of the pipes that was damaged and been removed and temporarily capped
- Opening it gets blood water, and it smells a bit rotten compared to how the water normally is
- Into the ceiling, the walls inside are blackened and parts are crumbling

★ LIBRARY

- Seems to look like how they remember it, and there doesn't seem to be much damage
- There is a thin layer of ash on top of the tables
- Not enough heat to trigger the sprinklers, just the smoke detector
- Ash on the ladder steps but no ash on the higher shelves
- Removing the smoke detector from the ceiling caused the tile to fall and reveals a crawl space; north will hit a wall, south will lead to the upper floor and west will lead to the first floor - going south reveals that the crawlspace is very clean to the point where it seems that someone deliberately cleaned this path

★ ART ROOM:

- There are several paintings that match the paint on the president and one of the paintings is a WIP that she drew of a nighttime scene of the wisteria tree in the courtyard

- Supply cabinets and storage spaces are filled with paints, pastels, canvases, etc in neat organization; one of the cabinets is completely empty but there is a red stain on the back that smells like acrylic paint

★ BATHROOM BY ART ROOM:

- Ceiling crawlspace leading towards the library has been deep cleaned after the body discovery on 4/16, smells most heavily of disinfectant above the bathroom
- Bathroom itself does not seem to have been scrubbed, but the sink smells of disinfectant like someone poured some down the drain
- Bloody doubled up nitrile gloves found stuffed in one of the toilets
- Smear of blood, several days old, on the wall hidden behind trash can

★ HOME EC ROOM:

- Out of strawberries
- There is a knife that has been missing since earlier in the week
- There isn't a full sheet of fabric missing, but some seem to have been cut by people
- The edge of two of them seem to be frayed and uneven, like they were cut by someone who doesn't know what they're doing and went at it with scissors

★ INTERPERSONAL CONNECTIONS/STUDENT INFO:

- Maya Arisu — in the student council, though didn't have much information. Mentioned that the deceased was a "middle school transfer student" but hasn't seen anything suspicious at all. Claims to have not known the deceased well.
- The deceased herself was in class 3-C and a member of the art club as well. The third years know her best
- The rest of the third year students are NOT VERY HELPFUL!!
