Answer in complete sentences ON YOUR OWN PAPER!!!

1. Use the provided graph paper to make a bar graph of each country's war dead.
2. Which Central Powers had the most people die in the war? Which Allied powers country had the most people die?
3. How much money did the war cost France? Germany? USA?
4. Which country spent the most money and had the most deaths? Which country had high deaths and not too much money lost? (1920 Debt- 1913 Debt) = Money spent on the war.
5. The war lasted 1576 days. How many people died (both sides) during this time? How many (both sides) died per day? Per Hour? Per minute?
6. For each of France, Britain, USA, German Empire, Austria-Hungary, Serbia & Russia, what percentage of the population was mobilized (trained and sent to war)? ($\# \text{ Mobilized} / \text{Total Population} \times 100 = \text{Percent Mobilized}$)
7. For each of the countries from question #6, graph the casualties on the back of the graph paper. $\text{Casualties} = (\text{Dead} + \text{Wounded} + \text{Prisoner})$
8. For each of the countries from question #6, what percentage of the men mobilized were casualties? ($\text{Casualties} / \# \text{ Mobilized} \times 100 = \text{Percent Casualties}$)
9. Why did the USA have so few dead? Why do you think they spent so much money?
10. How do you think having such a high casualty rate would change the countries that participated in WWI? Explain your answer.
11. France and Great Britain were both in the war for the same amount of time. Why did France lose so much money? Explain.
12. Why do you think Britain and France wanted the Treaty of Versailles to be so harsh on Germany?

Allied Powers							
Country	Population	# Mobilized	Dead (D)	Wounded (W)	Prisoners (P)	1913 Debt	1920 Debt
British Empire	440,000,000	8,654,280	873,980	2,525,927	279,357	3,485,000,000	39,218,000,000
