Abstract — The instructions in this template file provide the author(s) with the basic guidelines for preparing the one-page digest for The 15th Eco-Energy and Materials Science and Engineering Symposium (EMSES2022), which will be held in Pattaya, Thailand on December 8-10, 2022. Please carefully follow these instructions to ensure legibility and uniformity of digests in the conference record.

I. Usage of this Template

The template file, *Digest Template.doc*, is provided for the preparation of the one-page digest for EMSES2022. The Authors are requested to prepare their one-page digest according to the layout given to *Digest Template.doc* file.

Open the template file, *Digest Template.doc*, and select "Reveal Formatting" or "Styles and Formatting" from the "Format" menu in the menu bar (Format>Reveal Formatting), which shows you the details of the format adopted in this template. Type over sections of *Digest Template.doc* or cut and paste from another document and then use markup styles. The pull-down style menu is at the left of the Formatting Toolbar at the top of your Word window. Highlight a section that you want to designate with a certain style; then select the appropriate name on the style menu. The style will adjust your fonts and line spacing.

To insert an image in Word, position the cursor at the insertion point and either use Insert > Picture > From File or copy the image to the Windows clipboard and then use Edit > Paste Special > Picture (with "Float over text" unchecked).

After completing your one-page digest, you will need to upload it in the MS Word format.

II. General Layout of the One Page Digest

Please prepare the camera-ready copy of your digest on A4 paper (21.0cm x29.7cm). The digest should be prepared in double-column format. The total text height should be 24.4cm. The total width should be 18.3cm with a separation of 0.5cm between the columns. Please provide a top and bottom margin of 1.78cm and a left and right margin of 1.65cm. Paragraphs follow the indented paragraph format with left and right justification. Use 0.5cm for paragraph indentation.

III. Instruction Details and Useful Hints

Place figures and tables in the middle of columns. Figure captions should be centered below the figures, and table captions should be centered above the tables. Use either the Microsoft Equation Editor or the *MathType* add-on for editing equations. Use either the SI (MKS) or CGS as the primary units. The SI units are strongly recommended. Avoid combining the SI and CGS units. References should be the same style as shown in the reference section of this template file. The use of grammar and spelling checker as well as proof reading is strongly recommended.

Please use Times New Roman typeface and following the type size specified in Table I as closely as possible.

TABLE I
TYPES SIZES FOR CAMERA-READY PAPERS

Item	Type Size (points)	Appearance
Title	14	Bold
Author's Name	12	Regular
Author's Affiliations, and E-mail	10	Regular
Abstract	9	Bold
Sections Titles	10	Small capitals, centered in column, Roman Numerals
Subheadings	10	Italics, alphabetical numerals
Main Text	10	Regular
Subscripts and Superscripts in the Main Text	8	Regular
Figure Captions	8	Regular, centered in column, Arabic numerals
Table Captions	10	Small capitals, title case, centered in column, Roman numerals
References	8	Regular

IV. Conference and Paper Submission Information

The "Call for Papers" of EMSES2022 is now available on the website(https://sites.google.com/view/emses2022/home). This digest template file can be downloaded from the EMSE2022 website. The deadline for the digest submission is ***August 1, 2022***. Please submit the digests by uploading them through the symposium website. Notification of acceptance will be given on ***November 10, 2022***. Author(s) with accepted digests will be required to submit the full papers in both the MS Word and PDF formats by ***November 20, 2022*** via the symposium website together with the copyright forms which will be available at the symposium website.
