

# WildFly - Commonhaus Asset Transfer

This document is a working list of assets in various categories that we expect to transfer to Commonhaus as part of the onboarding of the WildFly project.

## Source Code Repositories

**Definition:** The repository accounts (such as GitHub organizations, repositories, or bots) used by the Project to maintain its software, documentation, and related materials, and currently controlled by the Assignor as host or maintainer. For the avoidance of doubt, this does not include any code or other content maintained in the repositories.

### Organizations

<https://github.com/wildfly>

<https://github.com/wildfly-extras>

<https://github.com/wildscribe>

<https://github.com/ha1>

<https://github.com/wildfly-security>

<https://github.com/wildfly-security-incubator>
