Bring Your Own Device (BYOD) Chromebook

Connect to the "NISD" wireless network
When prompted input your NISD network username and password.

Launch the phone's internet browser (Samsung internet, Chrome, etc.) and type cert.nisdtx.org.

Click on the blue words to download NISD webauth certificate.

If the certificate does not download from that site, use this Alternate Download Link
And download, then "download anyway"

Once the certificate finishes downloading, you will need to type in the address bar:
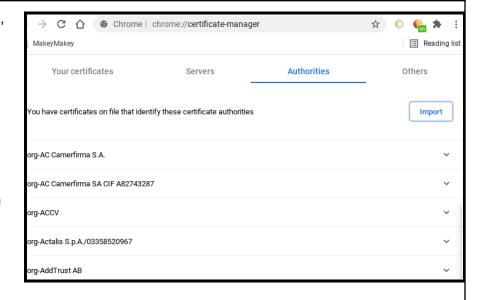

chrome://certificate-manager

Click on **Authorities**

Click **Import**

On the Import screen click the drop down in the bottom left to select "All Files"

Then import and trust the nisd certificate
