Intro to Agriculture

Course Description:

Agriscience Applications is a course designed to give students an overview of the agriculture industry using the FFA curriculum.

Objectives:

The successful student in *Agriscience Applications* will grasp a general knowledge of the agriculture industry and become involved with FFA.

Goal:

The primary goal for students taking *Agriscience Applications* is to join FFA and become familiar with the many components that make up the agriculture industry.

Instructional Methods:

Instruction in *Agriscience Applications* will be given both in the classroom and in a laboratory setting. Hands-on participation is mandatory. Instruction outside of the classroom will be limited by the students' active participation.

Grading Policy:

Quizzes will be given at the end of each objective. Supervised Agricultural Experience projects count 35 % of final grade. .

Grading Scale:

SAE=35%

Quizzes=25%

Vocats Exam=20%

Classwork=20%

Absences, Late Assignments, and Make-up Assignments:

Absences will be recorded per TCS guidelines. Assignments may be made up within 10 days of the due date or if communicated with Mr. Harris.

Progress Reports:

Progress reports will be sent home at the end of each 4.5 weeks period. I will send additional progress reports home as needed.
