

Third eye Awakening reviews

I have already left a rave review on Amazon about the amazing benefits of the Haritaki Third Eye capsules I purchased. We truly have gained tremendous intuitive results and experienced vivid dreams! Our gut health has also greatly improved from our daily use of this amazing product. Keep up the good work, we love you too! God bless.

I did leave a very favorable review on Amazon of your Third eye haritaki capsules. I love the product and will continue to keep buying it! I have also convinced 2-3 co-workers to purchase it as well; And I will continue to promote this product to others. Everyone needs to feel the benefits that I and my wife are receiving from your Hartaki supplement. Great improvements to our intuitive sense. Thank you for the discount code.

I don't know about the third eye opening, but the immediate effects of these pills were focused concentration. I'm 50 years old and have an anxiety disorder and sensory processing issues, have trouble with concentration and impulse control. I've been taking the pills for 30 days and have noticed a drastic change in my sleep/wake patterns, my ability to read without getting distracted, and reasoning. I do believe this supplement has cleared out old neural pathways and enabled me to form new ones — that can be considered a healing, especially for someone suffering with learning or behavior disorders. Using this product is like getting a brain reset.

This item is amazing, I gave this item to few friends who don't know much natural remedies or supplements. They had one pill the next morning they felt more energetic and focused. Wonderful! , keep doing what you doing guys, thank you for this amazing beneficial product. P.S I have the powder of this item if you can by the taste either or is awesome. Namaste 🙏 peace and love to all

This is an interesting item. I'm not sure what to call it, a vitamin, perhaps? I think it's working as I have some very vivid memories during sleep. It's not dreaming, it's just a quick flash of memory. I took 2 tablets one night last week and ended up staying awake the whole night. So, I'm back to 1. I have to say that it has helped to clear my mind at night. And, my awareness seems to be increasing, as well. I would recommend this but also want to let anyone reading this know to please go slowly and let the effects begin naturally.

Bought this after reading about all the different benefits of Haritaki., I have been getting incredible sleep. This is nothing like Melatonin, it doesn't make you drowsy and you don't feel groggy when you wake up.
