

[INSTRUCTIONS]

You must include the TL;DR, Market Overview, Competitors, and Analysis of <PRODUCT> standing in the market sections. The other sections are optional, and your competitive market analysis only needs to be 5 pages long. Feel free to make the analysis longer or use all the sections if you feel they are relevant to your project. If there is a section you would like to add, feel free to do so but just run it by us first.

Cite your sources as hyperlinks throughout the paper. Be sure to link the websites of the competitors and of your product (if it is an existing product). Use graphs and tables as necessary (they can be very helpful for quickly digesting information). If you used a source but the specific point is not anywhere in the analysis, you can leave it in the Relevant Links section.
