Rules for Ferdinand Rarepair Celebration

What qualifies as a rarepair

Rarepairs for this event are those which feature Ferdinand as a main member of the pairing and have 100 or less unique works on Archive of Our Own as of the release of this document on April 10, 2021. Unique works are defined by application of the OTP:true search function on AO3.

Polyamorous ships are included so long as the tag for the ship inclusive of Ferdinand. This means ships like Ferdinand/Edelgard/Hubert and Ferdinand/Bernadetta/Dorothea are allowed.

If a pairing passes 100 unique works between April 10 and June 13, it still qualifies for this rarepair celebration.

All gender identities, presentations, and expressions of characters are welcome

This event welcomes all gender identities, presentations, and expressions of characters.

Tag content appropriately

Tag **characters *and* ships** in the text of the top level post. If your ship does not have a common name (like “Ferdirenz” for Ferdinand/Lorenz), please use the full first name/first name convention.

NSFW content is allowed so long as it is tagged as such. It should have a SFW preview and all NSFW content should be behind a link (i.e. AO3, Privatter). Please use our event hashtag **#FerdieRarepairNSFW** in the body of your top level NSFW content tweet.

Sexual content pre-timeskip is allowed as long as all participating characters are 18 or older.

Tag content and trigger warnings clearly in the top level tweet.

Posts that do not adhere to these guidelines will not be retweeted.

All work submitted must be your own work

All work submitted for this event must be your own work. Please do not repost anyone’s work but your own.
