Reflection: *What am I most proud of? What would I do differently?*

アナイ I am most proud of the overall finished product and the was the rice ball tasted. Something that I would differently is cooking the salmon with more spices.

ナタエル One things im most proud of is actually commtiing and doing to the project and the rice ball actually tasted kinda good.

ルイス i am proud that i made some food and it wasn't that bad. Something i would change is getting all the ingredients beforehand.

Next Step: *What do I plan to explore next?*
