

| Neo Agent 3 Picture Collaboration |

Hi! This is Chesilitia, the owner of Loving Splatoon OCs! You're invited to join this collaboration, The Neo Agent 3 Collab! I hope you enjoy participating in this collaboration ✨

The collaboration picture will feature all the Neo Agent 3 OCs artworks done and sent by the community. You don't have to be following any account to join this collaboration as we wish lots of people send their own Neo Agent 3 interpretation. In fact, anyone can join! Your skill level doesn't matters!

The picture collaboration will be available *for anyone to see, download and use without profit, and will be used by the [@Splatoon_ocs](#) Twitter account and [discord server](#) as banner or tweets.* If you're not comfortable with this statement, please *refrain* from sending your Neo Agent 3.

You, the participant, will be credited for each submission sent. The General Artists Credit document will be located in the same place as the Collaboration picture.

Please understand that this collaboration is only digital and there won't be any kind of physical merchandise.

Dates

This collaboration will accept submissions through May 1st to May 31st, 11:59p.m. Pacific Time. After that time, no more submissions will be accepted, nor extra time will be added.

The picture arrangement is expected to be completed around the end of June, and the complete collaboration picture will be shared in July if possible. However, delays may happen due unforeseen circumstances.

If we are having trouble with your files we will let you know via email or the social media handle you gave to us.

Common questions

It is only for Neo Agent 3?

Yes. It is only for Neo Agent 3, however you can send your Neo Agent 3 OC! Actually, it's preferable that you send your own Neo Agent 3 interpretation.

Can I add props to my Neo Agent 3? Like weapons?

Of course! Just don't make them too obstructive, it shouldn't cover your Neo Agent 3 or be too big that it could obstruct other Agent OCs.

Should I send my Neo Agent 3 using only their Agent clothes?

Not necessarily! You can send them in their casual outfit, or even make your own take in the Neo Agent 3's outfit. Just make sure they're recognizable as Neo Agent 3, like adding part of their Agent clothing as example.

Can I send another OC that isn't Neo Agent 3?

While we love seeing all the different ocs designs, we won't allow ocs who aren't Neo Agent 3.

Can I send my Neo Agent 3 even though they're not an Inkfish?

Yes! Even if they're not an inkfish (inkling or octoling), you can send them. Just make sure they're recognizable as Neo Agent 3.

Can I send more than one Neo Agent 3?

You can! Just make sure to send one character per form submission.

Is NSFW allowed?

Absolutely not.

Where can I send my Neo Agent 3?

You can send your file using the following link:

Do I need to make a new picture for this collaboration or can I use art I already made?

You don't need to make new art for this collaboration, you can use art you already made. Just make sure it follows the guidelines already mentioned.

Can I use art that someone made for me?

Sure! Just make sure the picture is following the guidelines and properly credit the artist that made the art.

Are you accepting submissions through other means?

Not currently.

Can I post my entry on social media?

At any time! If you do so, please tag [@Splatoon_ocs](#) or use the #Neo3AgentCollab tag so we can admire your work.

How do I know if I got in?

If there's no trouble with any of your files, we will send an email in the next few days after you send your file, usually a week later. If you haven't received an email after two weeks, please contact us.

[While we will accept all entries that follow the guidelines, we may decline a submission without warning. We are not obligated to disclose the reasons. However, if you think your submission has been declined by error, please contact us.]

How can I know when the collaboration ends in my timezone?

If you have problems when converting PST timezone to your current timezone, you can use the following tool:
