

Test Task: Quiz Challenge App Design

Objective:

Design a **Quiz Challenge Mobile App (4–5 screens)** to showcase your UI/UX and creativity skills. The app should look **modern, vibrant, and engaging** while remaining **clean and user-friendly**.

App Concept:

QuizMate – A fun, gamified quiz app where users can challenge friends, test knowledge, and climb leaderboards.

Screens to Design (4–5 screens):

1. Welcome / Onboarding Screen

- Introduce the app with a tagline (e.g., *“Play. Learn. Compete.”*)
- Include a “Get Started” button.

2. Login / Sign Up Screen

- Email or Google login options.
- Simple, minimal layout.

3. Home Screen / Dashboard

- Display quiz categories (Science, Sports, History, Tech).
- Include “Start Quiz” or “Challenge Friend” CTA.

4. Quiz Screen

- Show question, options (MCQs), and a timer.
- Add a progress bar and “Next” button.

5. Result / Score Screen

- Display score with fun celebratory visuals.
- Include “Play Again” and “Share Result” options.

Color Palette & Feel:

Vibrant, playful, and clean — **Electric Blue (#4F46E5)**, **Soft Yellow (#FACC15)**, **Coral Pink (#FB7185)**, **Light Gray (#F9FAFB)**, **Charcoal Text (#111827)**.
