

Fact Checking AI

You have been given three facts generated by AI. For each fact:

1. Find at least one reputable source (for example, BBC, NHS, National Cyber Security Centre, gov.uk or an academic website) to check if the statement is true or false.
2. Write the name of the website or source you used and include a link if possible.
3. Decide if the statement is true or false and explain what you found out. If it was false, write what the real answer is.

AI Fact	Source Used	True or False? (Explain)
1.		
2.		
3.
