## Parent/Guardian Frequently Asked Questions (FAQs)

### Why is Testing Important?

To be successful and competent learners, students must acquire skills, concepts, and information. We use different tests and assessments to measure students' learning and their understanding of content standards. These important tests provide valuable information about our students' academic progress. The pages that follow contain the 2025-2026 assessment dates for local, state, and national tests. The results of high-stakes tests provide students and their parents or guardians with information on their academic readiness and level of learning, while teachers gain insight into their teaching effectiveness. These results also play a crucial role in deciding which programs, supports, and resources are necessary for students.

### What Can I Do to Help My Child?

The support of parents and guardians is critical in helping children during both high-stakes and low-stakes testing. We ask parents and guardians to understand the purpose of the different tests their child takes and learn more about their academic abilities. Parents and guardians can enhance test-taking confidence through positive reinforcement and encouragement for their children. Parents can create a comfortable study environment and support their child's home learning by using test preparation resources throughout the school year. These resources are available from the school or through various test preparation websites. Parents and guardians also can create a supportive home environment that values the learner's well-being and growth while encouraging their child to maintain a balanced perspective on education and interests.

### Are these the Only Tests My Child Will Take?

Use the calendar to plan appointments or school absences to ensure your child is at school to take these high-stake tests. Note that students will take other assessments and tests outside of this calendar to measure their learning needs. Information regarding other district, state, or national-mandated assessments, along with their dates, will be included in internal and external district and school communications. **State-mandated assessments are indicated by the bold text.**

### What to Do with Extending Learning Beyond the Classroom (ELBC) Days?

We ask parents, students, and staff to use the following Extending Learning Beyond the Classroom (ELBC) dates to analyze, interpret, and use the data from assessments to make informed decisions that positively affect student outcomes.
