Statement of Inquiry Note: must include the Global Context Exploration, Key Concepts & Related Concepts	Through the manipulation of lines in the creation of optical illusion artwork, artists explore how changes in composition can challenge perceptions of reality, reflecting both personal and cultural expressions of visual art across genres.	The art style of realism reflects and challenges the relationship between identity, society, and the individual's interpretation of the world, highlighting the ways in which artistic style connects to challenging existing views.	Through the creation and interpretation of Mandala designs, we explore how symbolism in visual art communicates cultural beliefs and personal expression, allowing for diverse representations that contribute to a hopeful and fair future.	Artists employ methods such as linear perspective to represent time, place, and space in innovative ways and engage the audience in a dynamic viewing experience that explores the playful interactions between humans and their environments.		
Current Event or Real Life Connection	Misinformation and Disinformation plague our media landscape. The intent of Op Art is to create an opportunity to interpret what is real and what is imagined/manipulated by researching primary sources that help determine the real versus	Social media is a constant barrage of stimuli that impacts our sense of self and self worth. Standards of acceptance are challenged and identity formation can be impacted by constantly interacting in this space.	Self care and social emotional learning is ever present in the education system. Interpreting cultural expressions amidst the current news cycles can elicit hope in our shared humanity.	The current administration has placed expectations on the style of government buildings. Students will weigh in on the aesthetic choices and what they represent.	Impact of Climate Change in an urban setting. Connecting the United Nations Sustainable Development Goals, students will engage in real world problem solving as they design sustainable structures.
