On 15 May 2019, your daily newspaper printed an article ABC. In that article, social activist Mr. ABC is portrayed as a corrupt and inhumane person I want to bring it to your kind attention that it is not true

I have known him since our high school days and I can surely tell you that he is a very honest and kind person who deeply cares for poor and needy people and that is the reason why started the NGO after completing his studies. If he wanted to earn money he could have opted for a job in any company and with but he chose to help of poor people.

The reason why he was reported was that he was going to file a case in the court against some very popular politicians because he had some evidence that would have shown the reality of the politicians, the politicians defamed him to save themselves.

I would like you to republish the article with “Name” defense on al the allegations.

Thank you
