

Student's Name_____

Dear Parent,

Our class is studying the constitution. As part of the study your student has chosen a slip of paper, which shows a job from one of the three branches of government: Executive, Legislative or Judicial. It is glued below.

The assignment is for the student to bring in an object that represents the chosen job. As an example the Secretary of Agriculture might bring in a can of corn or the Supreme Court Justice might wear a large shirt backwards to look like judge's robe. The student should be able to tell the class the job he/she has chosen and one fact about the job.

My job is in the _____
branch of the government.

Glue the slip of paper in
the above square.
